Introduction

This chapter describes segments 141 through 180 of the SRG Table.

This table shows table headings for each segment that use abbreviations and the full text associated with those abbreviations:

Introduction

These are the Transaction Field Identification Tables. They describe the fields on batch transactions. This chapter covers transactions NA through ZZ.

This table shows table headings for each segment that use abbreviations and the full text associated with those abbreviations:

Introduction

These are the Transaction Field Identification Tables. They describe the fields on batch transactions.

This chapter covers Benefits module transactions.

This table shows table headings for each segment that use abbreviations and the full text associated with those abbreviations:
