Chapter 1 Concept

Infor Forcam MES offers an administrative insight with the reports of the category System Recordings. Different reports are available under the subcategory User Administration. They list all users registered in Infor Forcam MES and provide information about the assigned permissions and roles. It is also possible to display a log showing which role has been created or removed. The log also provides information about assigned permissions with details about the editor.

Permissions and roles are created and managed in the System Administration (Workbench module) of Infor Forcam MES. When creating and changing data, data sources are created which can be displayed in the reporting of the Office module. Thus, users created in the Workbench and their maintenance are immediately visible in Office (after refreshing the report). The reports of the System Recordings only provide an insight. Users cannot be edited here.

Note: For a detailed description of the configuration of permissions and roles, see the Master Data and System Administration manual.

Figure 1: Users created in system administration are displayed directly in reporting

Chapter 2 User Roles Reports

User Roles

Path: Performance Analysis > Reporting > Reports > System Recordings > User Administration > User Roles

Listing of all users created in the Workbench with information on the organizational unit and the respective role. By default, sorted by user name (alphabetically).

The screenshot shows a web-based report interface. At the top, there are two dropdown menus labeled 'Role: -' and 'User: -' (callout 1), followed by a refresh icon. Below this is a table with five columns: 'Username' (callout 2), 'Email' (callout 3), 'Super User' (callout 4), 'Organizational Units' (callout 5), and 'Role' (callout 6). The table contains seven rows of user data. The 'Super User' column has a checked checkbox for the 'Admin' user and unchecked checkboxes for all other users. The 'Organizational Units' column shows 'HIER/FOR' for the Admin and 'DNC-HIER/FOR/GER/F1' for the other users. The 'Role' column shows 'MASTER' for the Admin and 'MANAGER' for the other users.

Username	Email	Super User	Organizational Units	Role
Admin		<input checked="" type="checkbox"/>	HIER/FOR	MASTER
Alfred Bös	Alfred.Boes@example.com	<input type="checkbox"/>	DNC-HIER/FOR/GER/F1	MANAGER
Alfred Bös	Alfred.Boes@example.com	<input type="checkbox"/>	HIER/FOR	PDM
Alicia Jagd	Alicia.Jagd@example.com	<input type="checkbox"/>	DNC-HIER/FOR/GER/F1	MANAGER
Alisa Kapp	Alisa.Kapp@example.com	<input type="checkbox"/>	DNC-HIER/FOR/GER/F1	MANAGER
Andrea Boss	Andrea.Boss@example.com	<input type="checkbox"/>	DNC-HIER/FOR/GER/F1	MANAGER

- 1 Filter of the report:
All roles and users configured in the Workbench
- 2 Username
- 3 Email address that is stored with the user
- 4 If a check mark is set, the user is declared as superuser.
- 5 Organizational unit to which the user belongs
- 6 User role stored in the Workbench

Permissions & Roles History

Path: Performance Analysis > Reporting > Reports > System Recordings > User Administration > Permissions & Roles History

Listing of all activities concerning an internal system permission or role: Assignment or removal of permissions or roles with indication of the exact time and the editor. By default, sorted by the time of processing.

Every permission or role-based action executed in the Workbench can be viewed in this report after refreshing it.

Action	Editor	Change Timestamp	Role	Permission
Permission granted	SYSTEM	2019-08-15 11:18:33.284	PDM	Production Data Management/El...
Permission granted	SYSTEM	2019-08-15 11:18:33.283	PDM	Production Data Management/El...
Role added	SYSTEM	2019-08-15 11:18:33.277	PDM

Permission granted	SYSTEM	2019-04-02 11:26:03.469	TEAM LEAD	User Administration/Permission &
Permission granted	SYSTEM	2019-04-02 11:26:03.468	TEAM LEAD	User Administration/Permission &

- 1 Filter of the report:
All permissions, roles and users configured in the Workbench. In addition, every possible permission or role-based action and the respective editor.
- 2 Action that was executed
- 3 Editor (logged-in user who performed the action)
- 4 Date of the action
- 5 Role affected by the action
- 6 Permission affected by the action

Permissions & Roles

Path: Performance Analysis > Reporting > Reports > System Recordings > User Administration > Permissions & Roles

Listing of all permissions currently available in the Workbench with the corresponding role. A permission can be assigned to several roles simultaneously.

By default, sorted by role (alphabetically).

Note: If the report is loaded without initially selecting a permission in the filter, the loading time can be high due to the possible high number of permissions.

The screenshot shows the 'User Roles Reports' interface. At the top, there is a filter section (labeled 1) with two dropdown menus: 'Role: -' and 'Permission: -', followed by a refresh button. Below the filter is a table (labeled 2) with two columns: 'Role' and 'Permission'. The table contains six rows of data, all with the role 'ADMINISTRATOR'. The permissions listed are: 'Administration/Alarmierung Rect', 'Administration/Auto. Reports bearbeiten', 'Administration/DCU/DACQ konfigurieren', 'Administration/E-Mail-Gruppen bearbeiten', 'Administration/Mail-Trigger bearbeiten', and 'Benutzerverwaltung/Benutzer-Editor/Benutzer löschen'. A red bracket (labeled 3) spans the 'Permission' column header and its data rows.

Role	Permission
ADMINISTRATOR	Administration/Alarmierung Rect
ADMINISTRATOR	Administration/Auto. Reports bearbeiten
ADMINISTRATOR	Administration/DCU/DACQ konfigurieren
ADMINISTRATOR	Administration/E-Mail-Gruppen bearbeiten
ADMINISTRATOR	Administration/Mail-Trigger bearbeiten
ADMINISTRATOR	Benutzerverwaltung/Benutzer-Editor/Benutzer löschen

- 1 Filter of the report:
All roles and permissions configured in the Workbench
- 2 Available roles
- 3 Permissions that belong to the respective roles
