# About this document

## Objectives

This document describes how to install the software for Infor LN Dynamic Form Editor. No specific operating system knowledge is required to use this document. However, understanding the contents requires a basic understanding of the Dynamic Form Editor in general.

## Comments?

We continually review and improve our documentation. Any remarks/requests for information concerning this document or topic are appreciated. Please e-mail your comments to [documentation@infor.com](mailto:documentation@infor.com).

In your e-mail, refer to the document number and title. More specific information will enable us to process feedback efficiently.

## Contacting Infor

If you have questions about Infor products, go to the Infor Xtreme Support portal at [www.infor.com/inforxtreme](http://www.infor.com/inforxtreme).

If we update this document after the product release, we will post the new version on this Web site. We recommend that you check this Web site periodically for updated documentation.

# Chapter 1

## Introduction

# 1

An important part of the user interface of a session is defined in its form.

There are two types of forms:

- Static
- Dynamic

Static forms can be created or modified with the Enterprise Server. The dynamic forms however, can only be created or modified with the Dynamic Form Editor. The Dynamic Form Editor is an application that must be installed on the desktop PC.

## Pre-requisites

Infor LN BW must be installed before you can install the Dynamic Form Editor.

## Chapter 2

# Installing the Dynamic Form Editor

# 2

To install the Dynamic Form Editor:

1. Ensure Infor LN is installed and running. This is not mandatory for the installation of the Dynamic Form Editor, but for running the Dynamic Form Editor later with Infor LN.
2. Insert the Infor Enterprise Server medium into your system.
3. Change directories to `/Clients/Infor LN Dynamic Form Editor`.
4. Double click the `DFESetup.exe` file. The Welcome dialog is displayed.
5. Click **Next**. The Select Environment dialog box is displayed.
6. Select the environment for which you want to use the Dynamic Form Editor and click **Next**.
7. Click **Finish**. When the installation has completed successfully, you will exit the setup program.

There are no further post installation tasks to perform.
