# Where to look for information

1

## Where to look for information

Throughout this release notes, references to specific documents and Knowledge Base articles may be provided to help you locate more detailed information.

Product documentation is available on the Infor Xtreme portal.

- You can find documentation posted to the product records on the Download Products page. Look here first for installation guides and release notes.
- You can browse or search for product documentation on the Documentation page.

For questions or feedback, email [documentation@infor.com](mailto:documentation@infor.com).

## Documentation updates

The following updates to documentation are included with this release.

Document Name	Description
M3 Fashion Matrix plug-ins Release Notes	This document
M3 Fashion Matrix plug-ins Installation Guide	Updated document
M3 Fashion Matrix User Guide	Updates incorporated in M3 Business Engine User Documentation Infocenter: <ul style="list-style-type: none"><li>• Customer Order Processing</li><li>• Distribution Order Processing</li><li>• Purchase Order Processing</li></ul>

### Scope of this release

M3 Fashion Matrix plug-ins 15.1.4 is a minor release including new features and corrections. M3 Fashion Matrix plug-ins now includes support for distribution order processing in addition to the existing customer order processing and purchase order processing plug-ins.

### Restrictions

Installation of M3 Fashion Matrix plug-ins is required with Smart Office interface only. If using H5 client interface, additional plug-ins are not required.

### Upgrade paths

The release is a full installation and can update any previous M3 Fashion Matrix plug-ins installation. Uninstall the previous version before updating to the new release. For more information, see *M3 Fashion Matrix plug-ins Installation Guide*.

M3 Business Engine	15.1.4	
M3 Core Infrastructure and Technology	13.4.0	

## Related software components

Software Component	Supported Versions	Comments
Infor Document Management	12.x	Optional for connecting images to items.

## M3 Fashion Matrix plug-ins for distribution order

---

Description	<p>Styles (Family items) and SKUs (Product variants) are commonly used when running the system in Fashion mode. Using SKUs results in a large number of order lines, making it difficult to get an overview of each order. An improved interface that provides a more efficient way of working with Fashion-related items is needed.</p> <p>M3 Fashion Matrix plug-ins 15.1.4 now features a plug-in for processing distribution orders, in addition to the existing plug-ins for customer orders and purchase orders.</p> <p>M3 Fashion Matrix is only available for UI Smart Office.</p> <p>The distribution part within M3 Fashion Matrix plug-ins is opened by selecting a distribution order in <b>'Req/Distr Order. Open' (MMS100/B)</b> and clicking View matrix. The order type of the distribution order is required to have stock transaction type 51 - 'Distribution Order Issue'.</p> <p>The distribution order lines can be viewed in matrix form in M3 Fashion Matrix plug-ins, separated by style number, delivery date, warehouse, and Z-dimension if it exists. Users can use the matrix interface to add new distribution order lines belonging to an existing distribution order, regardless if the SKUs belong to an existing style on the distribution order or not.</p> <p>Changing and deleting distribution order lines are also allowed. Each cell in M3 Fashion Matrix plug-ins represent one distribution order line where the quantity can be added or changed by entering a number in the cell, or deleted by entering the number zero in a cell and then updated by clicking Update. All pending changes are displayed in red to inform the user that an update is needed.</p>
-------------	--

---

Description	<p>Communication with M3 BE is handled through MI transactions (API). The product provides users with a new interface for handling the distribution order processing for Fashion items in M3 BE. It complements ordinary distribution order processing and enables changes to be made directly in the M3 BE function.</p> <p>Infor Document Management (IDM) can be used to connect images to be shown in M3 Fashion Matrix.</p> <p>Minor enhancements and several bug fixes for the customer order matrix plug-in and the purchase order matrix plug-in are also included in version 15.1.4.</p>
