## Getting started

Infor Ming.le™ is a mobile application that runs on the Windows phone and other Windows devices. We support these versions of Windows:

- 10.0

**Note:** If your Windows device has earlier version of the operating system, then you must upgrade the device to Windows 10.

The Infor Ming.le mobile application consists of these parts:

- Users
- Groups
- Alerts
- Tasks
- Workflows
- Posts
- Connections
- Notifications
- Streams (available only on Surface devices)

## Downloading the Infor Ming.le mobile application

You can download the Infor Ming.le mobile application for Windows devices from the Windows Store.

## VPN connection

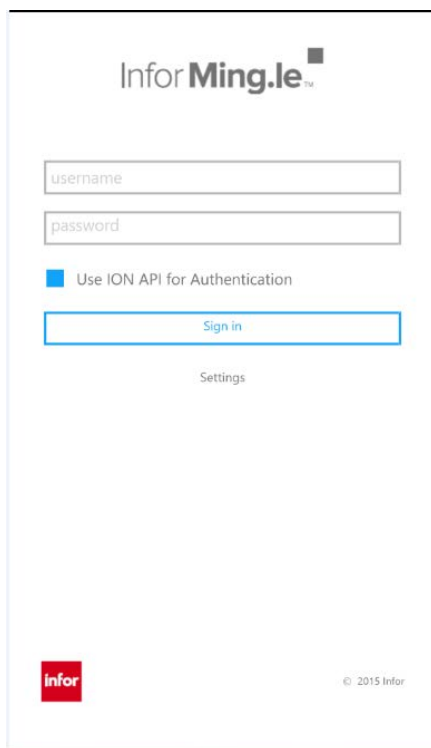

Depending on the configuration of your infrastructure, you may need to use a VPN (virtual private network) to connect to the Infor Ming.le mobile application. Check with your IT department or system administrator for more information.

## Installing

Tap **Install** to install the Infor Ming.le mobile application. After the application is installed successfully, tap **Open** to access the mobile application.

## Configuring your application

To configure your application, during the first sign-in, select the authentication method on the Sign in screen based on what version of Infor Ming.le you are using.

The screenshot shows the Infor Ming.le mobile application sign-in screen. At the top, the Infor Ming.le logo is displayed. Below the logo are two input fields: one for 'username' and one for 'password'. Underneath these fields is a checkbox labeled 'Use ION API for Authentication', which is currently checked. Below the checkbox is a blue 'Sign in' button. At the bottom of the screen, there is a 'Settings' link. In the bottom left corner, the Infor logo is visible, and in the bottom right corner, the text '© 2015 Infor' is displayed.

## Limitation for Infor Ming.le 11.1.6 or an earlier version

You cannot use the Infor Ming.le mobile application on a Windows mobile device with an 11.1.6 or earlier (on-premises version) environment if you are using a VPN connection to a site that has untrusted or self-signed certificates. Consult your organization's Infor Ming.le administrator for more information. This limitation does not apply to Windows tablets.

## Infor Ming.le 11.1.6 or earlier

- 1 If you have Infor Ming.le 11.1.6 or an earlier version, do not select the **Use ION API for Authentication** box on the Sign in screen. Tap **Settings** to enter your server details on the Settings screen.

- 2 Each device requires the protocol, host name, and port number of the Infor Ming.le installation. In the Settings section of the Infor Ming.le Mobile application:
  - For the **Server Address**, specify **<Protocol>://<hostname>**.
  - For the **Server Port**, specify **<portnumber>**.
  - For the **Tenant ID**, specify **Infor**.
- 3 Tap **Save**.
- 4 Tap the back arrow to return to the Sign in screen.

## Limitation for Infor Ming.le 12.0.0 or a later version

To connect to a 12.0.0 or later (on-premises version) environment, you must have an authentic certificate, signed by a Public Certificate Authority.

### Infor Ming.le 12.0.0 or later

- 1 If you have Infor Ming.le 12.0.0 or later, select the **Use ION API for Authentication** box on the Sign in screen. Tap **Settings** to display this dialog:

- 2 Tap **Scan**. The camera on your device is activated.
- 3 Scan a QR code to add the profile to the Profiles screen. You can add a profile by scanning a QR code. On the Add Profile screen, after the successful scan of the QR code, all the values in the fields are filled.
- 4 Tap **Test Connection** to validate the connection.
- 5 Tap **Save** to save the profile.
- 6 Tap the back arrow to go back to the Sign in screen.

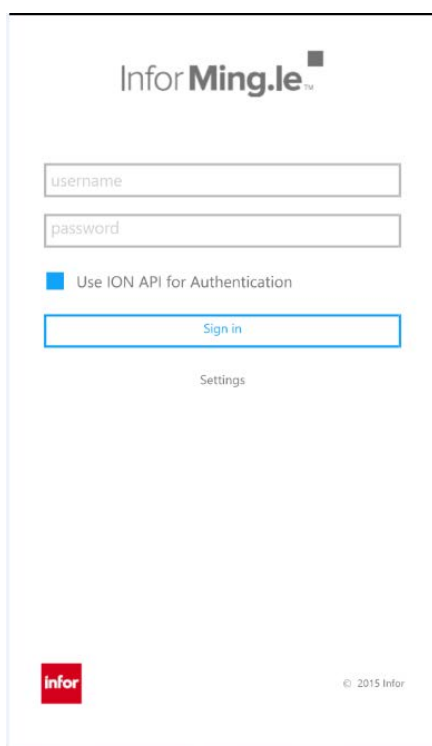

# Signing in

When you access Infor Ming.le for the first time, the Sign in screen is displayed.

To access Infor Ming.le after the first time, to sign in to your account, tap the Infor Ming.le application on your device to open it.

## Infor Ming.le 11.1.6 or earlier

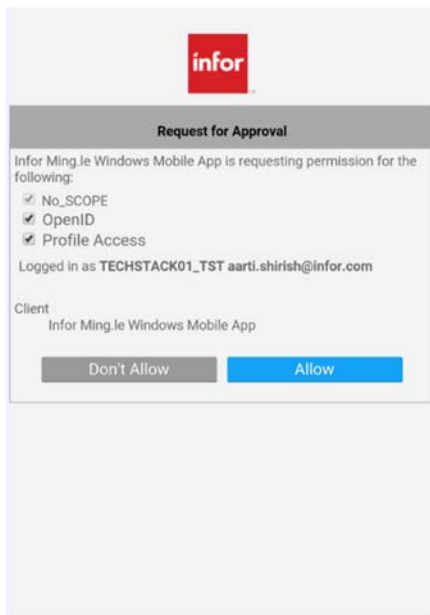

- 1 If you have Infor Ming.le 11.1.6 or an earlier version, do not select the **Use ION API for Authentication** box to sign in.

- 2 Specify your user name and password.
- 3 Tap **Sign in**.  
After successful sign-in, you are on the posts screen.
- 4 If you want to reconfigure your settings, tap **Settings** to open the Settings or Profiles screen, based on your selection. See the “Configuring your application” section above.

## Infor Ming.le 12.0.0 or later

- 1 If you have Infor Ming.le 12.0.0 or later, select the **Use ION API for Authentication** box. Tap **Sign in** to display the Sign in screen.
- 2 Based on how it is configured by your administrator, you may be prompted to select one of the Identity Providers. In that case, select the Identity Provider to go to the Sign in screen. Otherwise, you are redirected to the Sign in screen.
- 3 Enter your credentials to sign in to this environment. The Request for Approval screen is displayed.

- 4 Tap **Allow** to authorize the mobile application. After successful sign-in, you are on the posts screen.

## Configuring your tenant with the push notifications service for on-premises edition

You must configure your tenant to use the push notifications functionality for Infor Ming.le mobile applications.

To set up the push notifications feature:

- 1 Ask your administrator to create Cloud Edition tenant only for you.
- 2 Create a new authorized app as a backend service in the ION API portal in the Cloud Edition tenant only:
  - a Select **ION API > Add New App > Backend Service**.

The screenshot shows the 'Infor ION API' interface with the 'Authorized Apps' tab selected. The form is titled 'Non-Infor New Authorized App' and contains the following fields and options:

- Name \***: A text input field.
- Type \***: A group of radio buttons with the following options:
  - Mobile - Android
  - Mobile - iOS
  - Mobile - Windows
  - Mobile - Others
  - Web
  - Backend Service** (selected)
- Description \***: A text input field.
- Client ID**: A text input field.
- Secret**: A text input field.
- OAuth 2.0 Access Token**: A dropdown menu set to '2 Hours'.
- Issue Refresh Tokens**: A checked checkbox.
- Refresh Token Grant Lifetime \***: A text input field containing '0' and a dropdown menu set to 'Hours'. A note below the input says 'Enter 0 for Refresh Tokens to never expire'.

At the bottom of the form are two buttons: 'CANCEL' and 'SAVE'.

- b Complete the required fields.
  - c Click **Save**.
- 3 Download the credentials and save the .ionapi file locally.
  - 4 Log into your Infor Ming.le on-premises edition.
  - 5 From the User Menu, select **Admin Settings > General Settings**.
  - 6 Select the **Enable Push Notification Service** check box.

7 Click **Upload Credentials** to upload the .ionapi file that you downloaded in Step 3:

8 Save your settings.

**Note:** Every time you download the credentials from this authorized app (**Backend Service**) created in the Cloud Edition tenant, a new credentials (.ionapi) file is created, and at the same time, the previously uploaded credentials become invalid. Therefore, whenever you download the credentials, make sure you also upload the newly downloaded file to use the push notifications service.

## Configuring your tenant with push notifications service for Cloud Edition

You do not need to configure your tenant to use the push notifications functionality for Infor Ming.le mobile applications as the tenant is configured automatically at the time of tenant provisioning.

## Hamburger Menu

Tap the hamburger menu  from the navigation bar to display the left navigation menu.

## Navigation

The left Infor Ming.le navigation menu has these options:

### User profile

Tap your profile image to access your profile screen. From here, you can:

- Edit your profile
- Review your account information

- Review all of your posts

## Alerts

Tap **Alerts** to access the alerts screen. From here, you can review and manage the list of alerts, including:

- Assign and Unassign alerts to yourself
- Assign alerts to others
- Mark an alert as **Done**
- Share alerts
- Add notes and attachments
- View notes and attachments
- Filter by **All Alerts**, **My Alerts**, and **Escalated Alerts**
- Search for any alerts

## Tasks

Tap **Tasks** to access the tasks screen. From here, you can review and manage the list of tasks, including:

- Assign and Unassign tasks to yourself
- Edit the task parameters
- Drill down the workflow structures
- Take action on a task
- Share tasks
- Add notes and attachments
- View notes and attachments
- Assign tasks to others
- View ION notifications
- Share ION notifications
- Acknowledge ION notifications
- Updates on assigned tasks
- Filter by **All Tasks**, **My Tasks**, and **Escalated Tasks**
- Search for any tasks
- View the list of workflows
- Start new workflows
- Remove workflows
- Cancel workflows

- View workflow notes
- Search for any workflows

## Posts

Tap **Posts** to access the posts screen. From here, you can review and manage the list of posts, including:

- Create new posts
- Add a location to the posts
- Tag posts to specific users and groups
- Share posts
- Delete posts
- Add comments
- Tag comments to specific users
- Add a location to the comments
- Delete comments
- Add attachments
- View attachments
- Search for any posts

## Connections (available from 12.0.0)

Tap **Connections** to access the My Connections, My Groups, and Directory screens. From here, you can review and manage the list of users and groups, including:

- Connect/Disconnect to users
- Accept/Decline a user's request
- Cancel the request sent to a user
- Follow/Unfollow users
- Search for users/groups
- Connect/Disconnect to groups
- Accept/Decline the request to join a group
- Cancel the request sent to join a private group

## Notifications

Tap **Notifications** to access the notifications screen. From here, you can review the list of notifications, including:

- Comments from other users
- Connection requests
- Group membership requests
- Tagged messages
- Likes from other users
- Delete the notification

## Streams (available only on Surface devices)

The Streams feature on the mobile application is available only if you connect to Infor Ming.le 12.0.5 (on premises) or later.

Tap **Streams** to access the streams screen. From here, you can review the list of all stream instances, and perform these actions:

- Create a new stream instance
- Start a stream instance
- Save/Cancel a new stream instance
- Edit a stream instance
- Complete a stream instance
- Restart a stream instance
- Delete a stream instance
- Cancel a stream instance
- Join a stream instance
- Leave a stream instance
- Add a new step to the stream
- Start a stream step
- Add attachments to a step
- Add comments to a step
- Edit a stream step
- Complete a stream step
- Resume a stream step
- Delete a stream step
- Reorder the stream steps
- Input data in the widgets

## Signing out

Tap **Sign Out** to sign out of the Infor Ming.le mobile application. You are returned to the logon screen, which requires your user name and password credentials.

## User profile

Your user profile screen displays your picture, name, and title. The **Info** screen displays your information, including a join date, email address, department and, if listed, phone numbers. The Posts screen displays all your posts, along with any posts you are tagged in.

## Cancel

Tap the back arrow to close the screen and to return to navigation menu screen.

## Users

Use the Infor Ming.le mobile application to connect with other users within your company.

You can navigate to another user's profile by tapping the user's name. You can view the user's contact information and posts.

The profile screen displays the selected user's account information and a screen for the user's posts. The profile screen also displays your connection status to the selected user.

## Email

You can email any user within the application by tapping an available email address from the selected user's profile screen. The email application opens with the selected email address displayed.

## Phone

You can call any user within the application by tapping an available phone number from the selected user's profile screen. The phone application opens with the selected phone number displayed.

## Connection status

The user's profile screen displays your connection status in the upper-right corner.

These are the connection status options:

### Connect

To connect to another user, tap the more icon  on the user's profile screen. All available options are displayed:

Tap **Connect**. The user receives a notification about your connection request.

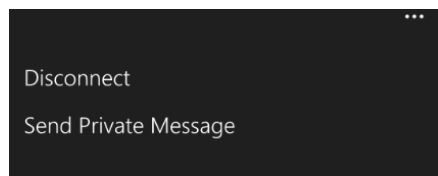

The user's profile now displays **Request Sent**.

### Connected

After the user accepts your connection request, the user's profile displays the connection status as **Connected**. When you are connected, you can send private messages to the user, and you can view any posts that the connected user sends to other users.

### Send Private Message

When you are connected to other users, you can send private messages. Tap the more icon  on the user's profile screen. All available options are displayed:

Tap **Send Private Message** to display the New Post screen. The audience is preset to **Private**. Only the selected individual will receive the message.

## Disconnect

If you are connected to another user, you can also disconnect from that user. Tap **Disconnect** from the list of options to disconnect the user. The connection status on the user's profile screen changes to **Connect**.

## Follow

You can follow a user if you are not connected to that user. This also applies when a connection request is pending.

Tap the more icon **⋮** on the user's profile screen. All available options are displayed:

Tap **Follow**. The connection status on the user's profile screen displays **Following**. Whether you are following a user or not, you can see that user's public posts.

## Unfollow

When you are following another user, you can select to stop following the user.

Tap the more icon  on the user's profile screen. All available options are displayed:

Tap **Unfollow**. The connection status on the user's profile screen now displays **Connect**. You can still see that user's public posts.

## Cancel

Tap the more icon  to close the overlay dialog. You remain on the user's profile screen.

## Groups

The Infor Ming.le mobile application allows you to send messages to groups. Groups are created on the web client. A group can be public or private. When a group is public, any user can view the group posts. When a group is private, only the members of that group can view the posts.

The group profile screen includes the group name, privacy setting, and sub-screens for group information, group members, and posts.

Swipe to the left to navigate to the Members screen and scroll down the screen to see a list of all group members. You can also access the member's profile by tapping the name or image.

Swipe to the left to navigate to the **Posts** screen and scroll down the screen to see a list of all group posts. You can also access the member's profile by tapping the name or image. Tap the post message to view the post details.

If you are a group member, the more icon  is displayed. Tap the icon to display this dialog:

## Disconnect

To disconnect from a group, tap **Disconnect**. You are disconnected from the group after confirmation.

## Send Group Message

To send a message to a group, tap **Send Group Message** to display the New Post screen. Only the members of the group receive the message.

If you are not a member of the group, the more icon is not displayed.

Type your message and tap the save icon to send the message to all members of the selected group.

## Invite Users to Group

If you are a group administrator, you can invite users to join a group. Tap **Invite Users to Group** to display the colleagues screen. Tap users from the list to select them and tap the check icon.

The selected users receive a notification inviting them to join the group.

Tap **X** to cancel the selection of users. None of the selected users will receive a notification inviting them to join the group.

# Alerts

The alerts screen displays the most recent alerts. You can also filter the alerts by tapping the filter icon  and selecting an option from the overlay screen. On the alerts screen, an escalated icon is next to those alerts that have an escalated priority.

Tap the alert to display the details screen, which also includes a summary and the attributes of the alert.

## Assignment

Tap the assign icon  to change the assignment. A dialog is displayed:

### Assign to Me

Tap **Assign to Me**. The alert is now assigned to you and is removed from the alert list of other users. You can mark the alert as **Done**, and you can upload notes and attachments.

## Unassign, only if Assigned to Me

Tap **Unassign**. The alert is removed from your alert list, and other users can assign themselves to it.

## Assign to Other

Tap **Assign to Other**. The users list is displayed, and you can assign the alert to another user. When assigned to another user, the alert is removed from your list.

## Cancel

Tap **Cancel** to close the assignment dialog. You remain on the alert details screen.

## More Options, if Assigned to Me

Tap the action icon  to display these options (based on the scenario, the options may be different):

## Share Alert

Tap **Share Alert** to display the alert on a new screen.

You can:

- Add more content or edit the alert
- Share it with specific users or groups
- Add attachments
- Send

## Cancel Share Alert

Tap the back arrow to return to the alert details screen.

## Add Note/View Notes

If notes do not exist, **Add Note** is displayed. If notes exist, **View Notes** is displayed.

Tap **Add Note** or **View Notes** to access the notes screen. After you type in the New Note section at the bottom of the screen, **Add Note** is displayed. Tap **Add Note** to display your note on the right side of the screen along with your profile image. Notes by others are displayed on the left side of the screen.

## Add Attachment/View Attachments

If attachments do not exist, **Add Attachment** is displayed. If an attachment exists, **View Attachments** is displayed.

Tap **Add Attachment** or **View Attachments** to access the attachments screen.

### **Picture/Video Library**

Tap **Picture/Video Library**. The All Albums Favorites screen on your device is displayed, and all images and videos are displayed. You can select existing images and videos, or you can take new images and videos.

Tap the images and videos to select them. You can select one or more images and videos. Tap the check mark icon. The selected images and videos are uploaded and displayed as attachments to your alert.

### **Use Camera**

Tap **Camera**. The camera on your device is activated. You can take either a new photo or video. Tap the camera icon to take a photo, or tap the video icon to record a video. Tap **Accept** to upload the new photo or video to your alert. Tap **Retake** to take another photo. Tap the back icon to close the camera.

### **Record Audio**

Tap **Record Audio**. The Voice Record screen is displayed with the record icon in the center of the screen. Tap the voice icon to record the voice or conversation. Tap the voice icon again to stop recording. Tap the save icon to attach this audio file to your alert. The audio file is displayed as an attachment on the attachments screen.

### **Music Library**

Tap **Music Library**. All the available music files, if any, on your device are displayed. Tap the file to select a file. Tap the check mark icon to attach this audio file to your alert.

If audio files are not available, a **This folder is empty** message is displayed.

### **Documents Library**

Tap **Documents Library**. The All Albums Favorites screen on your device is displayed, and all of the images and videos are displayed. You can select existing images and videos, or you can take new images and videos.

Tap the images and videos to select them. You can select one or more images and videos. Tap the check mark icon and the selected images and videos are uploaded and displayed as attachments to your alert.

Tap the more icon to display more options. Tap **Choose Location** and select any app to view all other type of files. You can select one or more files. Tap the check mark icon. The selected files are uploaded and displayed as attachments to your alert.

## Cancel

Tap the back arrow to close the attachments screen and return to the alert details screen.

## More Options, if Not Assigned to Me

Tap the action icon  to display these options:

## Share Alert

Tap **Share Alert** to display the alert in a new window. You can:

- Add more content to the alert
- Share it with specific users or groups
- Add attachments
- Add a location
- Send

### Cancel Share Alert

Tap the back arrow to return to the alert details screen.

## Notes/View Notes

Tap **Notes**. The notes screen is displayed. If no notes exist, this message is displayed:

Tap **Close** to close the message dialog to return to the alert details screen.

Tap **View Notes** to access the notes screen where all existing notes are displayed. If the alert is not assigned to you, you cannot add a new note. Tap the back arrow to return to the alert details screen.

## Attachments/View Attachments

Tap **Attachments**. The attachments screen is displayed. If no attachments exist, this message is displayed:

Tap **Close** to close the message dialog and return to the alert details screen.

Tap **View Attachments** to access the attachments screen where all existing attachments are displayed. If the alert is not assigned to you, you cannot add a new attachment. Tap the back arrow to return to the alert details screen.

## Cancel

Tap **Cancel** to close the dialog. You remain on the alert details screen.

## Mark as Done

If an alert is assigned to you, you can mark it as **Done** on the alert details screen.

Tap **Done** to remove the alert from your list.

## Filter

Tap the more icon  on the alerts screen to display the filter options:

- **All Alerts**
- **My Alerts**
- **Escalated Alerts**

Tap any of the options to filter the alerts accordingly.

The top navigation also displays the filtered selection.

## Search Alerts

Tap the search icon  on the alerts screen to display the **Search** field.

As you start entering text, matching results are displayed.

Tap **Backspace** to clear the search input area. Tap **X** to return to the alerts screen.

# Tasks

The Tasks section has Tasks and Workflows features.

The tasks screen displays the most recent tasks and ION notifications. On the tasks screen, an escalated icon is next to those tasks that have an escalated priority. You can also filter tasks by category by selecting a category from the **Filter** list.

Tap the task or ION notification to display the task details screen, which also includes a summary and the task parameters.

## Assignment

Tap the assign icon  to change the assignment. A dialog is displayed:

### Assign to Me

Tap **Assign to Me**. The task is now assigned to you. It is removed from the task list of other users. You can take action on the task and can also upload notes and attachments.

### Edit Parameters

After the task is assigned to yourself and if the task parameters are editable, tap the parameter to display the cursor. Tap **Backspace** to remove the current value and enter the new value. The new value is saved.

## Drilldown the Structures

Based on the definition of the workflow and if structures are part of the workflow, the task is displayed with structures on the tasks details screen. Tap the right arrow to drill down the values. To drill further down, tap other right arrows, if any, to view the complete tree structure.

## Unassign, only if Assigned to Me

Tap **Unassign**. The task is now removed from your task list, and other users can select it.

## Assign to Other

Tap **Assign to Other**. A users list is displayed, and you can assign the task to another user. After the task is assigned to another user, it is removed from the list.

## Cancel

Tap **Cancel** to close the assignment dialog. You remain on the task details screen.

## More Options, if Assigned to Me

Tap the options icon  to display these options:

## Share Task

Tap **Share Task** to display the task in a new window. You can:

- Add more content or edit the task
- Share it with specific users or groups
- Add attachments
- Send

## Cancel Share Task

Tap the back arrow to return to the task details screen.

## Add Note/View Notes

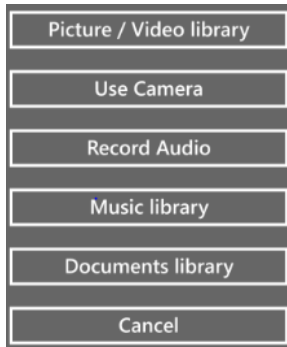

If notes do not exist, **Add Note** is displayed. If notes exist, **View Notes** is displayed.

Tap **Add Note** or **View Notes** to access the notes screen. After you type in the New Note section of the screen, **Add Note** is displayed. Tap **Add Note** to display your note on the right side of the screen along with your profile image. Notes by others are displayed on the left side of the screen.

## Add Attachment/View Attachments

If attachments do not exist, **Add Attachment** is displayed. If an attachment exists, **View Attachments** is displayed.

Tap **Add Attachment** or **View Attachments** to access the attachments screen. Tap **Add Attachments** to display the attachment options.

## Picture/Video Library

Tap **Picture/Video Library**. The All Albums Favorites screen on your device is displayed, and all images and videos are displayed. You can select existing images and videos, or you can take new images and videos.

Tap the images and videos to select them. You can select one or more images and videos. Tap the check mark icon. The selected images and videos are uploaded and displayed as attachments to your task.

## Use Camera

Tap **Camera**. The camera on your device is activated. You can take either a new photo or video. Tap the camera icon to take a photo, or tap the video icon to record a video. Tap **Accept** to upload the new photo or video to your task. Tap **Retake** to take another photo. Tap the back icon to close the camera.

## Record Audio

Tap **Record Audio**. The Voice Record screen is displayed with the record icon in the center of the screen. Tap the voice icon to record the voice or conversation. Tap the voice icon again to stop recording. Tap the save icon to attach this audio file to your task. The audio file is displayed as an attachment on the attachments screen.

## Music Library

Tap **Music Library**. All the available music files, if any, on your device are displayed. Tap the file to select a file. Tap the check mark icon to attach this audio file to your task.

If audio files are not available, a This folder is empty message is displayed.

## Documents Library

Tap **Documents Library**. The All Albums Favorites screen on your device is displayed, and all of the images and videos are displayed. You can select existing images and videos, or you can take new images and videos.

Tap the images and videos to select them. You can select one or more images and videos. Tap the check mark icon and the selected images and videos are uploaded and displayed as attachments to your task.

Tap the more icon to display more options. Tap **Choose Location** and select any app to view all other type of files. You can select one or more files. Tap the check mark icon. The selected files are uploaded and displayed as attachments to your task.

## Cancel

Tap **Cancel** to close the dialog. You remain on the Attachments screen.

## More Options, ION Notification

Tap the action icon  to display the **Share** option.

## Share ION Notification

Tap **Share** to display the notification in a new window. You can:

- Add more content or edit the ION notification
- Share it with specific users or groups
- Add attachments
- Add a location
- Send

## Cancel Share ION Notification

Tap the back arrow to return to the task details screen.

---

## Acknowledge ION Notification

Tap **Done** to acknowledge an ION notification. All acknowledged ION notifications are removed from the tasks list.

## More Options, if not Assigned to Me

Tap the action icon  to display these options:

### Share Task

Tap **Share Task** to display the task in a new window. You can:

- Add more content to the task
- Share it with specific users or groups
- Add attachments
- Add a location
- Send

### Cancel Share Task

Tap the back arrow to return to the task details screen.

### Notes/View Notes

If notes do not exist, **Notes** is displayed. If notes exist, **View Notes** is displayed.

Tap **Notes**. If no notes exist, this message is displayed:

Tap **Close** to close the message dialog to return to task details screen.

Tap **View Notes** to access the notes screen where all existing notes are displayed. If the task is not assigned to you, you cannot create a new note. Tap the back arrow to return to the task details screen.

## Attachments/View Attachments

Tap **Attachments**. If no attachments exist, this message is displayed:

Tap **Close** to close the message dialog to return to task details screen.

## View Attachments

Tap **Attachments** to access the attachments screen where all existing attachments are displayed. If the task is not assigned to you, you cannot add a new attachment. Tap the back arrow to return to the task details screen.

## Cancel

Tap **Cancel** to close the dialog. You remain on the task details screen.

## Mark as Done

If a task is assigned to you, you can mark it as **Done** on the task details screen.

Tap **Done** to remove the task from your list.

## Take Action

If a task is assigned to you and the task has **Approve** and **Reject** options on the task details screen, you can select one of the options.

### Approve

Tap **Approve**. The task is removed from your tasks list.

### Reject

Tap **Reject**. The task is removed from your tasks list.

## Filter

Tap the filter icon  to display the filter options:

- **All Tasks**
- **My Tasks**
- **Escalated Tasks**

Tap any of the options to filter the tasks accordingly.

The top navigation also displays the filtered selection.

## Search Tasks

Tap the search icon  on the tasks screen to display the **Search** field.

As you start entering text, matching results are displayed.

Tap **Backspace** to clear the search input area. Tap **X** to return to the tasks screen.

# Workflows

Workflows are part of the Tasks section. Tap the drop-down arrow to display this dialog:

Tap **Workflows** to go to Workflows screen. The workflows screen displays all of the workflow instances, if any. If there are no workflows to display, a message is displayed to indicate that no workflows exist.

Tap the workflow to display the details screen, which also includes a summary and the parameters of the workflow.

Tap the more icon to display all of the workflow categories:

- All
- Running
- Completed
- Canceled
- Failed

Tap a category to display the workflows for that category.

## Starting a workflow

You can start a workflow manually from your mobile application. Tap the plus icon to display the New Workflow screen. On the New Workflow screen, all the available workflow templates are listed. Tap the workflow template that you want to use. Based on the definition of the workflow selected, the corresponding input fields are displayed. You can customize the workflow instance name and description and enter the values in the mandatory fields.

## Add Attachments

You can add attachments to new and running workflow instances. Tap **Add New** on the New Workflow screen to prompt this dialog:

### Picture/Video Library

Tap **Picture/Video Library**. The All Albums Favorites screen on your device is displayed, and all images and videos are displayed. You can select existing images and videos, or you can take new images and videos.

Tap the images and videos to select them. You can select one or more images and videos. Tap the check mark icon. The selected images and videos are uploaded and displayed as attachments to the workflow.

### Use Camera

Tap **Camera**. The camera on your device is activated. You can take either a new photo or video. Tap the camera icon to take a photo, or tap the video icon to record a video. Tap **Accept** to upload the new photo or video to the workflow. Tap **Retake** to take another photo. Tap the back icon to close the camera.

### Record Audio

Tap **Record Audio**. The Voice Record screen is displayed with the record icon in the center of the screen. Tap the voice icon to record the voice or conversation. Tap the voice icon again to stop recording. Tap the save icon to attach this audio file to the workflow. The audio file is displayed as an attachment on the attachments screen.

### Music Library

Tap **Music Library**. All the available music files, if any, on your device are displayed. Tap the file to select a file. Tap the check mark icon to attach this audio file to the workflow.

If audio files are not available, a **This folder is empty** message is displayed.

## Documents Library

Tap **Documents Library**. The All Albums Favorites screen on your device is displayed, and all of the images and videos are displayed. You can select existing images and videos, or you can take new images and videos.

Tap the images and videos to select them. You can select one or more images and videos. Tap the check mark icon and the selected images and videos are uploaded and displayed as attachments to the workflow.

Tap the more icon to display more options. Tap **Choose Location** and select any app to view all other type of files. You can select one or more files. Tap the check mark icon. The selected files are uploaded and displayed as attachments to the workflow.

## Cancel

Tap **Cancel**. The dialog box closes, and you remain on the New Workflow screen.

Tap the save icon to save and start the new workflow instance.

## Cancel a Workflow

If a workflow instance is in running status, you can either cancel the workflow or add attachments to it.

Tap the more icon  on the Workflow Details screen to display the available options:

- **Cancel Workflow**
- **Add Attachments**

Tap **Cancel Workflow**. The workflow is now canceled and the status of the workflow changes to Canceled.

You can also add attachments to a running workflow instance. Tap **Add Attachments** to display this dialog:

## View Notes

You can view notes, if any, of all the workflow instances that you started. Tap the more icon  to display the **View Notes** option.

Tap **View Notes** to go to the notes screen. All notes, up to the till to date, are listed on the screen.

## Remove a Workflow

You can remove a workflow instance if the workflow is in completed, canceled, or in failed status. Tap the more icon  to display the **Remove Workflow** option.

Tap **Remove Workflow**. The workflow is now removed from the workflows list view.

## Search Workflows

Tap the search icon  on the tasks screen to display the **Search** field.

As you start entering text, matching results are displayed.

Tap **Backspace** to clear the search input area. Tap **X** to return to the tasks screen.

# Posts

The post screen displays the most recent posts. Each post has options that are displayed when you open the post, such as adding a comment and sharing the post.

## Create Post

To create a post, tap the add icon . This screen is displayed:

Enter your message in the new message area. When you start entering the text, the attachment , privacy level , location , and send  icons are activated.

When creating a new post, you can specify users and groups within your post by using the @ sign. When you enter the @ sign, a new window is displayed. Enter a letter in the new window. A list of matching users and groups is displayed.

Tap the user or group to select it. The name is highlighted in the post area. Tap the send icon  to post the message. The user or group receives a notification about being mentioned in the post.

## Visibility, privacy level

Use the group icon  on the New Post screen to change the privacy level of the post. Tap the group icon to display different options for the visibility of the post. Tap the option to determine the audience for the post. Only the selected users or group can see the post.

## Add Attachments

You can add attachments to your new message by tapping the attachment icon displayed at the bottom of the New Post screen. Tap the attachment icon  to display this dialog:

### Picture/Video Library

Tap **Picture/Video Library**. The All Albums Favorites screen on your device is displayed, and all images and videos are displayed. You can select existing images and videos, or you can take new images and videos.

Tap the images and videos to select them. You can select one or more images and videos. Tap the check mark icon. The selected images and videos are uploaded and displayed as on the New Post screen.

### Use Camera

Tap **Camera**. The camera on your device is activated. You can take either a new photo or video. Tap the camera icon to take a photo, or tap the video icon to record a video. Tap **Accept** to upload the new photo or video to your post. Tap **Retake** to take another photo. Tap the back icon to close the camera.

---

## Record Audio

Tap **Record Audio**. The Voice Record screen is displayed with the record icon in the center of the screen. Tap the voice icon to record the voice or conversation. Tap the voice icon again to stop recording. Tap the save icon to attach this audio file to your post. The audio file is displayed as an attachment on the New Post screen.

## Music Library

Tap **Music Library**. All the available music files, if any, on your device are displayed. Tap the file to select a file. Tap the check mark icon to attach this audio file to your post.

If audio files are not available, a **This folder is empty** message is displayed.

## Documents Library

Tap **Documents Library**. The All Albums Favorites screen on your device is displayed, and all of the images and videos are displayed. You can select existing images and videos, or you can take new images and videos.

Tap the images and videos to select them. You can select one or more images and videos. Tap the check mark icon and the selected images and videos are uploaded and displayed as attachments to your post.

Tap the more icon to display more options. Tap **Choose Location** and select any app to view all other type of files. You can select one or more files. Tap the check mark icon. The selected files are uploaded and displayed as attachments to your post.

## Cancel

Tap **Cancel** to close the dialog. You remain on the New Post screen.

## Add Location

Tap the location icon  to add your current location to the post. The location value is displayed below the attachments.

## Post the Message

Tap the send icon  on the New Post screen to post your message to the users and groups specified within your post. Your post is also displayed on the Posts section of your profile screen.

## Cancel

Tap the back arrow to close the New Post screen. You are returned to the Posts screen.

## Post Details

From the post details screen, you can view the original post, along with any additional comments and attachments.

## View Attachments

If a post message has any attachments, the number of attachments is displayed on the right side of the details screen. Tap the file icon to view the file attachments. Tap the camera icon to view the image attachments.

You can also tap thumbnails to view the complete image.

## Like/Unlike Post

Tap the heart icon , to like a post. If another user likes your post, you receive a notification. If you tap the heart icon for a post, the like count is increased by a number and the total number of likes is displayed next to the heart icon.

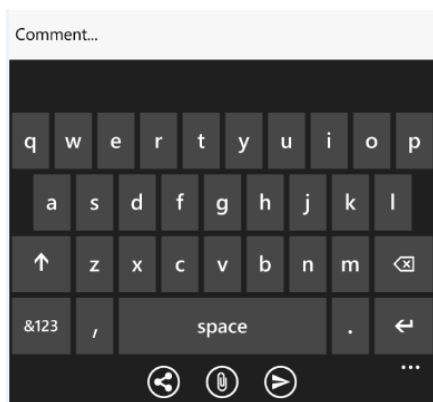

Tap the heart icon again to unlike a post. If you tap the heart icon to unlike a post, the like count is decreased by a number, and the updated total number of likes is displayed next to the heart icon.

## Add Comment

On the post details screen, you can add a new comment to the post. Tap the New Comment section to display a cursor. When you start entering the text, the attachment, location, and send icons are activated. You can also tag specific users to your comment.

## Add Attachments

Tap the attachment icon  to add attachments to your comment.

## Add Location

You can add a location to your comment. Tap the location icon to add your current location to the comment. The location value is displayed below your comment.

## Send Comment

Tap the send icon  to add your comment to the post message.

## More Options

When you tap the more icon, these options are displayed:

- **Delete Post**
- **Share Post**

## Share Post

Tap the share icon  to display the Share Post screen.

You can:

- Add more content or edit the post message
- Share it with specific users or groups
- Add attachments
- Add a location, only on Windows phones
- Send share post

## Cancel Share Post

Tap the back arrow to close the Share Post screen. You remain on the post details screen.

## Delete Post

Tap **Delete Post** to delete your post message. A Delete Post warning message is displayed. Tap **Yes** to confirm the deletion. The post message is deleted. You remain on the post details screen.

Tap **No** to close the dialog. You remain on the post details screen.

## Search Posts

Tap the search icon  on the posts screen to display the **Search** field.

As you start entering text, matching results are displayed.

Tap **Backspace** to clear the search input area. Tap **X** to return to the Posts screen.

## Connections (available from 12.0.0)

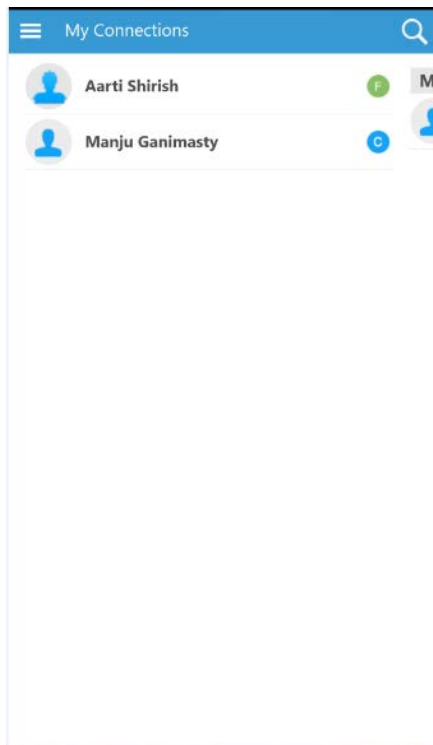

The connections section has these screens.

- My Connections
- My Groups
- Directory

### My Connections

The My Connections screen displays a list of these users:

- All users with whom you have connected
- All users whom you are following
- All users who are following you

If you are connected to a user, tap **C** to display this dialog:

Tap **Disconnect** to disconnect the user. Tap **Cancel** to close the dialog.

If you are following a user, tap **F** to display this dialog:

Tap **Unfollow** to stop following the user or tap **Connect** to send a connection request to the user. Tap **Cancel** to close the dialog.

If you are followed by a user, tap **F** to display this dialog:

- If it is a public group, you are connected instantly and become a member of the group. The current status changes to .
- If it is a private group, your request to join the group is sent to the group. The current status changes to .

Tap  to display this dialog:

Tap **Cancel Request** to cancel the request sent to the group. The current status changes to . Tap **Cancel** to close the dialog.

# Notifications

The notifications screen displays all your notifications. Some notifications have details, which are displayed on the notification details screen. Details include:

- Comments
- Attachments
- Number of Likes to the post

On the notification details screen, you can like/unlike, share, and add comments to the notification post.

You can also delete notifications from the notifications screen.

## Push Notifications

Push notifications functionality is available on your mobile device only if your mobile application is configured to Infor Ming.le 12.0.3 or later.

These are the types of notifications also displayed on the device lock screen if it is locked or if it is not locked but displayed as a banner:

- Connection requests sent to you
- Requests sent to you to join a group
- Posts to a group, to which the user belongs
- Comments on your posts
- Other user comments to a post on which you commented
- Someone has tagged you in a post
- A new task has been created
- A task is escalated
- A new alert has been created
- An alert has been escalated

## Notification Details

If a notification has details, a right arrow is displayed in the right corner for the notification. Tap the right arrow to go to the notification details screen. You can view the notification post, along with any additional comments and attachments.

## Like/Unlike Notification Post

Tap the heart icon , to like a post. If another user likes your post, you receive a notification. If you tap the heart icon for a post, the like count is increased by a number and the total number of likes is displayed next to the heart icon.

Tap the same heart icon to unlike a post. If you tap the heart icon for a post, the like count is decreased by a number, and the updated total number of likes is displayed next to the heart icon.

## Add Comment

You can add a comment to the notification post. On the notification details screen, you can add a new comment to the notification post. When you start entering the text, the attachment and send icons are activated.

## Add Attachments

Tap the attachment icon  to add attachments to your comment.

### Picture/Video Library

Tap **Picture/Video Library**. The All Albums Favorites screen on your device is displayed, and all images and videos are displayed. You can select existing images and videos, or you can take new images and videos.

Tap the images and videos to select them. You can select one or more images and videos. Tap the check mark icon. The selected images and videos are uploaded and displayed as on the New Post screen.

### Use Camera

Tap **Camera**. The camera on your device is activated. You can take either a new photo or video. Tap the camera icon to take a photo, or tap the video icon to record a video. Tap **Accept** to upload

the new photo or video to your post. Tap **Retake** to take another photo. Tap the back icon to close the camera.

### Record Audio

Tap **Record Audio**. The Voice Record screen is displayed with the record icon in the center of the screen. Tap the voice icon to record the voice or conversation. Tap the voice icon again to stop recording. Tap the save icon to attach this audio file to your post. The audio file is displayed as an attachment on the New Post screen.

### Music Library

Tap **Music Library**. All the available music files, if any, on your device are displayed. Tap the file to select a file. Tap the check mark icon to attach this audio file to your post.

If audio files are not available, a **This folder is empty** message is displayed.

### Documents Library

Tap **Documents Library**. The All Albums Favorites screen on your device is displayed, and all of the images and videos are displayed. You can select existing images and videos, or you can take new images and videos.

Tap the images and videos to select them. You can select one or more images and videos. Tap the check mark icon and the selected images and videos are uploaded and displayed as attachments to your post.

Tap the more icon to display more options. Tap **Choose Location** and select any app to view all other type of files. You can select one or more files. Tap the check mark icon. The selected files are uploaded and displayed as attachments to your post.

### Add Location

You can add a location to your comment. Tap the location icon  to add your current location to the comment. The location value is displayed below your comment.

### Send Comment

Tap the send icon  to post your comment to the notification post message.

### Share Notification Post

Tap the share icon  to display the Share Post screen.

You can:

- Add more content or edit the post message
- Share it with specific users or groups
- Add attachments
- Add a location, only on Windows phones
- Share the notification post

## Cancel Notification Share Post

Tap the back arrow to close the notification Share Post screen. You remain on the notification details screen.

## Search Notifications

Tap the search icon  on the notifications screen to display the **Search** field.

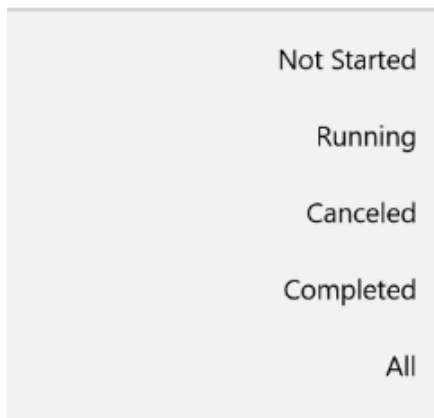

As you start entering the text, matching results are displayed.

Tap **Backspace** to clear the search input area. Tap **X** to return to the notifications screen.

## Streams (available only on Surface devices)

The streams screen displays the list of the stream instances. Tap the drop-down arrow to display the options. You can view the list by selecting **All Streams** or **My Streams** from the drop-down window.

### Filter

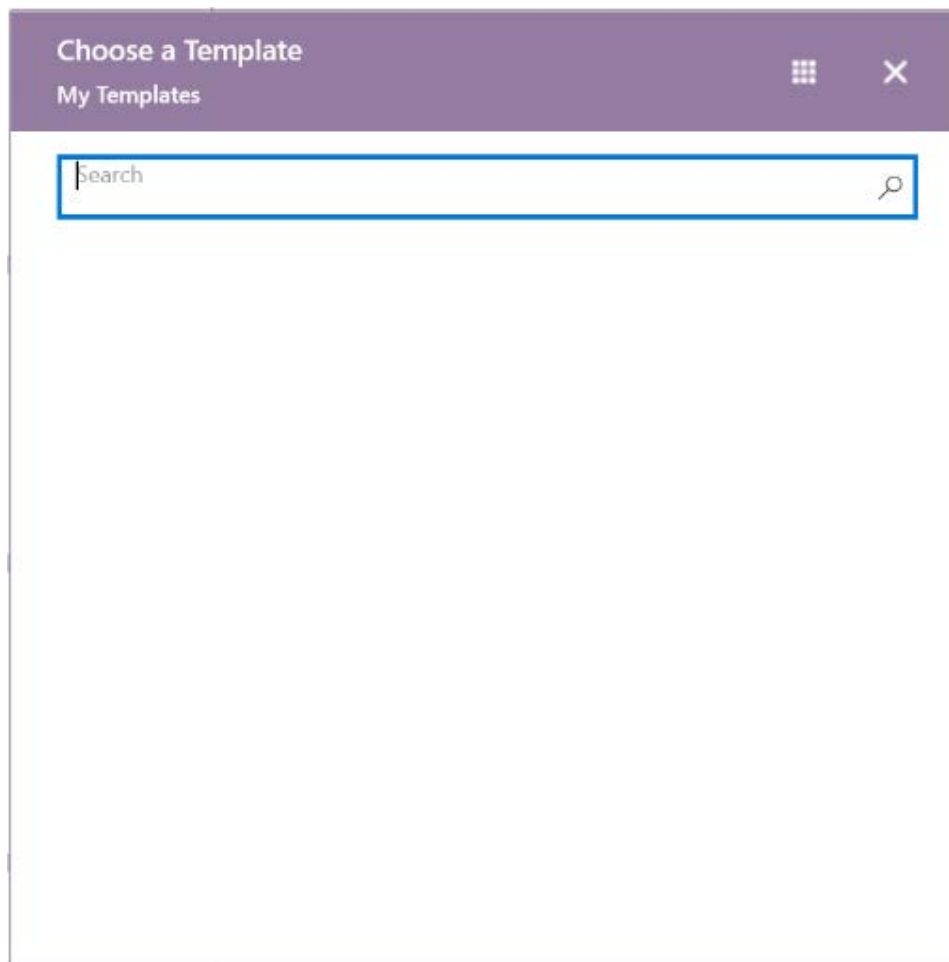

You can filter the streams list by status by tapping the more icon and selecting a status from the overlay screen:

- Not Started
- Running
- Canceled
- Completed
- All

Tap the stream to display the stream details screen, which includes the stream name, description, due date, template owners, stream owners, participants, and steps.

## Create a New Stream

You can create a new stream instance from your mobile application. Tap the pencil icon to display the Choose a Template screen. On the Choose a Template screen, by default, all of your active templates are listed:

You can filter the templates list by **All Templates** or **My Templates**. Tap the template that you want to use. Based on the definition of the template selected, the corresponding details are displayed.

You can customize the stream instance name by tapping Edit on the details panel. When you create a new stream instance, you can do the following:

- Edit the stream name
- Edit the stream description
- Change the privacy level
- Change the due date of the stream
- Add/Delete stream owners, including IFS distribution groups and Infor Ming.le groups
- Add/Delete internal participants, including IFS distribution groups and Infor Ming.le groups
- Add/Delete external participants

- Add/Delete tags

After you finish editing the new stream details, tap **Save** to save the new stream instance or tap the back icon to discard the current stream instance.

## Add Steps (a new stream instance)

You can add steps when you create a new stream instance.

The Steps panel displays all of the steps, if any steps are added at the template level. Tap **Edit** on the Steps panel to go to the Stream Steps screen.

Tap the plus icon to display the Add Step screen:

On the Add Step screen, enter the necessary details.

Tap **Save** to add the new step to the bottom of the steps list. You can reorder the steps as required.

Tap the plus icon to add another step, or tap the back icon to go back to the Edit Stream screen.

Tap **Done** to create a new stream instance.

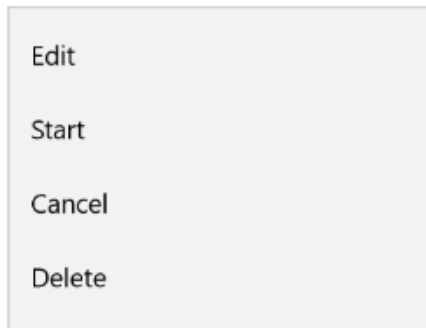

Tap **START NEW STREAM** to start the current new stream instance, or tap the back icon to go back to the streams section.

## Start a Stream

To start a stream, you must be the owner of the stream.

On the left panel of the streams section, tap a stream with a **Not Started** status to select it. Tap the action icon to display this dialog:

Tap **Start** to start the stream. The status of the stream changes to **Running**.

## Edit a Stream

To edit a stream, you must be the owner of the stream.

On the left panel of the streams section, tap a stream with a **Not Started, Running, Completed** or **Canceled** status to select it. Tap the action icon to display the dialog.

Tap **Edit** to edit the stream. On Edit Stream screen, tap **Edit** to open the Stream Details screen where you can edit this information:

- Name
- Description
- Privacy
- Due Date
- Add/Delete Tags
- Add/Delete Stream Owners
- Add/Delete Internal and External Participants

Tap **Save** to save your changes to the stream. Tap **Done** to go back to the streams section.

## Complete a Stream

To complete a stream, you must be the owner of the stream.

On the left panel of the streams section, tap a stream with a **Running** status to select it. Tap the action icon to display this dialog:

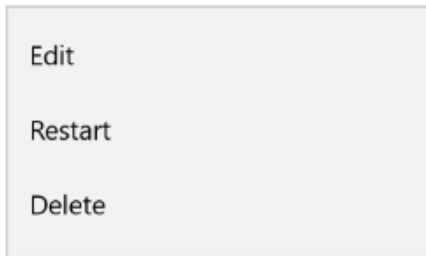

Tap **Complete** to complete the stream. The status of the stream changes to **Complete**.

## Restart a Stream

To restart a stream, you must be the owner of the stream.

On the left panel of the streams section, tap a stream with a **Completed** status to select it. Tap the action icon to display this dialog:

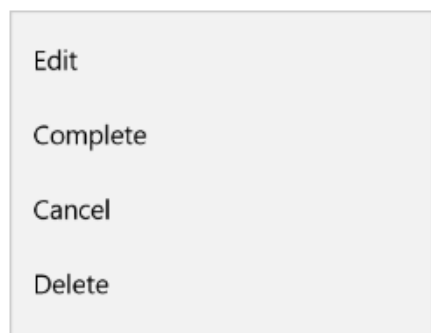

Tap **Restart** to restart the stream. The status of the stream changes to **Running**.

## Cancel a Stream

To cancel a stream, you must be the owner of the stream.

On the left panel of the streams section, tap a stream with a **Running** status to select it. Tap the action icon to display this dialog:

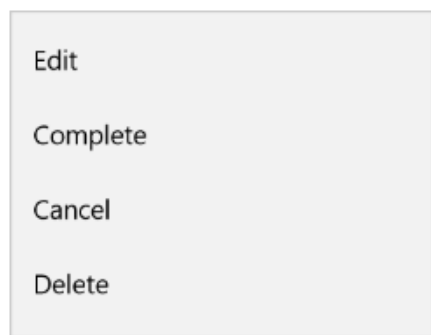

Tap **Cancel** to display the confirmation dialog.

Tap **Yes** to cancel the stream. The status of the stream changes to **Canceled**.

## Delete a Stream

To delete a stream, you must be the owner of the stream.

On the left panel of the streams section, tap a stream with any status (**Not Started**, **Running**, **Completed**, or **Canceled**) to select it. Tap the action icon to display this dialog:

Tap **Delete** to display the confirmation dialog.

Tap **Yes** to delete the stream. The selected stream is deleted from the streams list.

## Join a Stream

You can join a public stream if you are not a participant of the stream.

On the left panel of the streams section, tap a stream with a **Not Started** or **Running** status to select it. Tap the action icon to display this dialog:

A rectangular button with a light gray background and a thin border, containing the text "Join" in a dark gray font.

Tap **Join** to join the stream. You are added to the stream as an internal participant.

## Leave a Stream

You can leave a stream if you are an internal participant of the stream.

If you are the stream owner, you cannot leave the stream.

On the left panel of the streams section, tap a stream with a **Not Started** or **Running** status to select it. Tap the action icon to display this dialog:

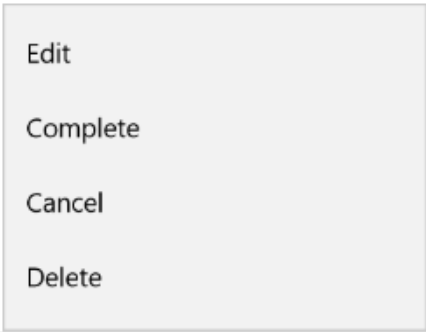

A rectangular button with a light gray background and a thin border, containing the text "Leave" in a dark gray font.

Tap **Leave** to leave the stream. You are removed from the list of internal participants of the stream.

## Reorder Stream Steps

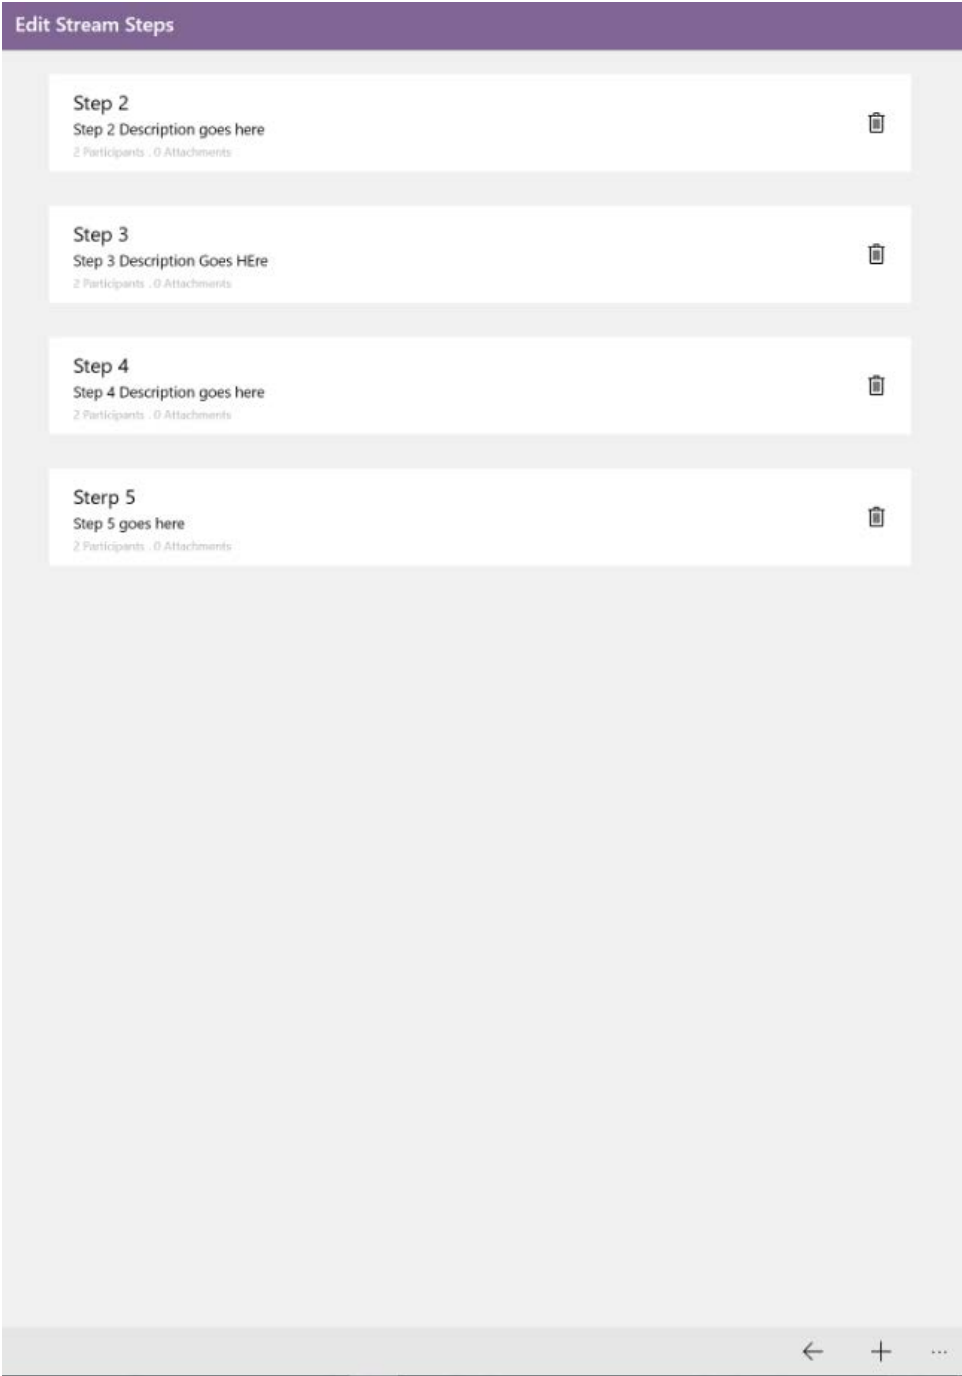

To reorder stream steps, you must be the owner of the stream.

On the left panel of the streams section, tap a stream with a **Not Started** or **Running** status to select it. Tap the action icon to display this dialog:

A rectangular dialog box with a light gray background and a thin border, containing four text options stacked vertically: "Edit", "Complete", "Cancel", and "Delete".

Tap **Edit** to open the Edit Stream screen.

Tap **Edit** on the Steps panel to go to the Edit Stream Steps screen:

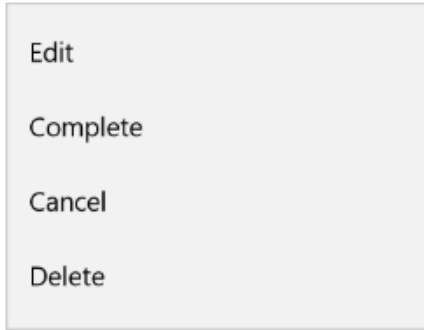

Tap and hold the step to move, slide up or down to the location to move the step, and release the icon. You can reorder the steps as often as you want.

Tap **Done** to go back to the Edit Stream screen.

## Add Steps (existing stream instance)

To add steps to a stream, you must be the owner of the stream.

On the left panel of the streams section, tap a stream with a **Not Started** or **Running** status to select it. Tap the action icon to display this dialog:

Tap **Edit** to go to the Edit Stream screen.

Tap **Edit** on the Steps panel to go to the Stream Steps screen.

Tap the plus icon to add a step to the current stream instance.

On the Add Step screen, enter the necessary details.

Tap **Save** to add the new step to the bottom of the steps list. You can reorder the steps as required.

Tap the plus icon to add another step, or tap **Done** to go back to the Edit Stream screen.

## Start a Stream Step

To start a stream step, you must be owner of the stream or an internal participant of the stream step.

On the left panel of the streams section, tap a stream with a **Running** status to select it.

On the right panel on the Stream Details screen, tap the right arrow icon of the **Not Started** step to go to the Step Details screen. Tap the action icon to display this dialog:

Tap **Start** to start the step. The status of the stream step changes to **Running**.

## Add Attachments

To add attachments to a stream step, you must be the owner of the stream or an internal participant of the stream step.

On the left panel of the streams section, tap a stream with a **Running** status to select it.

You can add attachments to a stream step in **Running** status.

On the right panel on the Stream Details screen, tap the right arrow icon of the step to go to the Step Details screen. Tap the add attachments icon to prompt the attachment options dialog.

## Add Comments

To add comments to a stream step, you must be the owner of the stream or an internal participant of the stream step, if the stream is a private stream.

If the stream is a public stream, any Infor Ming.le user who is not a participant of the stream can also add comments to a stream step.

On the left panel of the streams section, tap a stream with a **Running**, **Completed**, or **Canceled** status to select it.

You can add comments to a stream step that has a **Not Started**, **Running**, or **Completed** status.

On the right panel on the Stream Details screen, tap the right arrow icon of the step to go to Step Details screen. Tap the comments icon to display the Comments screen:

In the **New Comment** box, enter your comment. You can add attachments to the comment. Tap **Send** to add your comment to the current stream step. Tap **Done** to dismiss the Comments screen and go back to the Step Details screen.

## Edit a Stream Step

To edit a stream step, you must be the owner of the stream.

On the left panel of the streams section, tap a stream with a **Not Started** or **Running** status to select it.

You can edit a stream step only with a **Not Started** or **Running** status.

On the right panel on the Stream Details screen, tap the right arrow icon of the step to go to the Step Details screen. Tap the action icon to display this dialog:

Tap **Edit** to go to the Edit Step screen:

### Step Details

Name

---

Description

---

Due in  
**Sep 02 2016**

---

Inherit Stream Participants On

Start Step Only Internal Participants On

Internal Participants

External Participants

Attachments

On the Edit Step screen, you can edit this information only:

- Name
- Description
- Due In
- Select/Clear **Inherit Stream Participants** check box
- Select/Clear **Start Step Only by Internal Participants** check box
- Add/Delete Internal and External Participants

- Add/Delete Attachments

You cannot edit the widget details on the mobile application if the step has any widgets.

Tap **Save** to save the changes to the step.

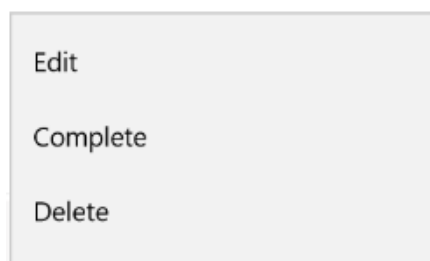

## Complete a Stream Step

To start a stream step, you must be the owner of the stream or an internal participant of the stream step.

On the left panel of the streams section, tap a stream with a **Running** status to select it.

You can complete a stream step only with a **Running** status.

On the right panel on the Stream Details screen, tap the right arrow icon of the step to go to the Step Details screen. Tap the action icon to display this dialog:

Tap **Complete** to complete the step. The status of the stream step changes to **Completed**.

## Resume a Stream Step

To resume a stream step, you must be the owner of the stream.

On the left panel of the streams section, tap a stream with a **Running** status to select it.

You can resume a stream step only with a **Completed** status.

On the right panel on the Stream Details screen, tap the right arrow icon of the step to go to the Step Details screen. Tap the actions icon to display this dialog:

Tap **Resume** to resume the step. The status of the stream step changes to **Running**.

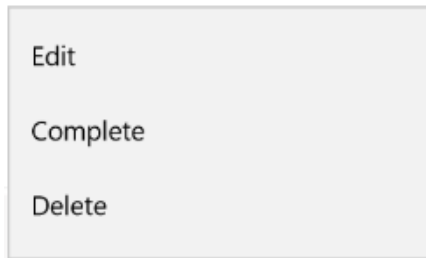

## Delete a Stream Step

To delete a stream step, you must be the owner of the stream.

On the left panel of the streams section, tap a stream with a **Running** status to select it.

You can delete a stream step only with a **Not Started** or **Running** status.

On the right panel on the Stream Details screen, tap the right arrow icon of the step to go to the Step Details screen. Tap the action icon to display this dialog:

Tap **Delete** to delete the step. The selected step is removed from the steps list.

## Search Streams

Tap the search icon on the streams screen to display the **Search** field.

Enter the text and tap the search icon on the keyboard. Matching results are displayed.

Tap **Backspace** to clear the search input area. Tap **X** to return to the stream screen.

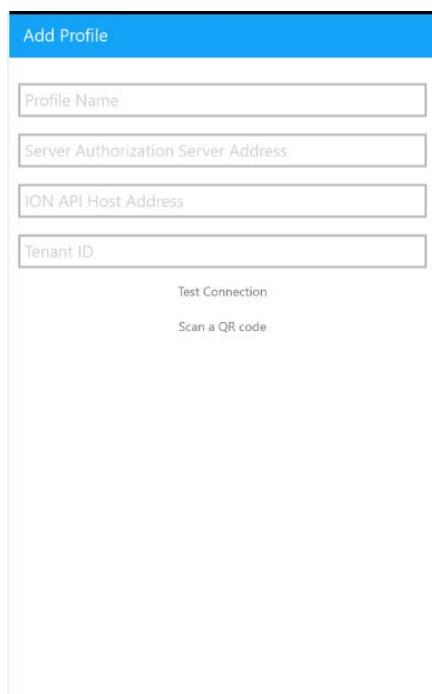

# Manage profiles

You can manage your profiles on the Profiles screen where you can do these tasks:

- Add a new profile
- Set a profile as the default profile
- Edit a profile
- Delete profile

## Adding a new profile

To add a new profile to the Profiles screen, tap  to display the Add Profile dialog and tap **Scan a QR code** to scan a QR code.

The screenshot shows the 'Add Profile' dialog box. It has a blue header with the text 'Add Profile'. Below the header are four text input fields: 'Profile Name', 'Server Authorization Server Address', 'ION API Host Address', and 'Tenant ID'. At the bottom of the dialog, there are two buttons: 'Test Connection' and 'Scan a QR code'.

## Setting the profile as the default

When you add the first profile, it is set as your default profile.

You can change your default profile only when you have more than one profile on the Profiles screen. To set another profile as the default, tap the profile to display this dialog:

Tap **Set profile as default** to set this profile as the default.

## Editing the profile

Tap the profile on Profiles screen to go to the Edit Profile screen. You can edit only the profile name.

## Deleting the profile

Tap the profile on the Profiles screen to display the options dialog and tap **Delete Profile** to delete the profile from the Profiles screen.
