Pathway Sprint 2024.06

Table of Contents

Introduction

This document describes the fixes and software corrections made in Sprint 2024.06 of the Pathway, ePathway and Pathway Smart Mobile software.

Included in this document are the following sections:

Online Help
This includes an overview of how to access Pathway Help.

Modules
Each module which has undergone modifications is included in this documentation. The documentation is now contained in the following documents:

- Infor Pathway Sprint Notes 2024.06.pdf
- Infor Pathway Sprint Notes Summary 2024.06.xlsx

.

Online Help

Help documents can be accessed from within the Pathway UX Client by going to My Account >> Help.

This will take you to the Infor Documentation page.

Click on the Title Infor Pathway UX User and Administration Documentation Library (Cloud and On-Premises).

Help is split between Administrator and User Topics. Modules can be accessed from the Administrator and User headings.

System - Functionality

External Web Services

Incident:	Work Item: 61036	Fix:
UX Client	KB:	ERS: 96415

EXTERNAL WEB SERVICES - NAME ROLE SEARCH SERVICE

The External Web Services Name Role Search service (CIFV5020.NameRoleSearch) has had the following additions:

1. Parsing of data contained within the concatenated Name Role Information. The roleapplicationdetail field, which is presently supplied as a block of text with summary details relating to the current role, can now be requested as extra details (<extradetails>1</extradetails> in request).
    When requested, as well as returning roleapplicationdetail as a monolithic block of text, it will also include the same details (and more … see full description of each roledetails for each module below) broken into fields with field label/value/type.

    E.g. For the booking number field, it may appear as:
    <roledetails>
    <roledetail><fieldlabel>BookNum</fieldlabel><fieldvalue>5553</fieldvalue><fieldtype>S</fieldtype></roledetail>
    </roledetails>

2. Customer Service Role Information now includes:
    *   Request Type Code (in addition to the existing Type Description)
    *   Date Updated

3. The Property Id (or Location Id) is now included in the new roledetails. Where the linked location can potentially be a Property, Parcel, or other such as Street it is supplied as a "Location Id" with a "Location Type" to identify what the Id actually represents. Whereas if it is always a Property, it will be supplied as "Property Id" or "Location Id" without a type.

Eg.
*   Applications, Licences and Assessments has Location Id and Location Type
*   Animals has a Location Id
*   Customer Request with a linked Property is shown as Property Id
*   Parent/sub properties for Property roles imbeds the Property Id as part of the label. Eg. The label, "Sub-property [417432]" indicates it has a Sub-property with Property Id = 417432, and the value will be the actual address.

4. Where a business object has a Status (over and above a simple Current/Historic status), the status code is provided in roledetails:
    *   Application Status (from STATUS.LAPSTAT)
    *   Licence Status (from STATUS.LAPSTAT)
    *   Animal Status (from CDELANSTUS.LANSTUS)

5. The payment application code (applicationcode) has been added to the roledebt details.

The full list of fields for each business object type will be detailed below.

ROLE TYPES THAT CAN INCLUDE THE EXTRA ROLE DETAILS

It should be noted that not all roles will include the parsed extra details.

Only role types which map directly to the module's main entity (or ones that can be used to deduce the main entity shown in italics) for the following modules may include the role details:

Module	Main Entity	Role Types
Applications	LAPAPPL LAPAFPR LAPPRCR LAPDCIO LAPRFND LAPTRFR	LAP-0 (Applicant) LAP-1 (Builder) LAP-2 (Architect) LAP-3 (Plumber) LAP-4 (Engineer) LAP-5 (Owner) LAP-6 (Consultant) LAP-7 (Contractor) LAP-8 (Affected Person) LAP-9 (The Insurer) LAP-16 (Long Service Payee) LAP-20 (Offset Contributor) LAP-21 (Offset Valuer) LAP-30 (Refund Payee)
Licences	LAPAPPL LAPAFPR LAPPRCR LAPDCIO LAPRFND LAPTRFR	LLC-0 (Licensee) LLC-2 (Proprietor) LLC-3 (Contact) LLC-4 (Caretaker) LLC-5 (Owner) LLC-6 (Food Safety Supervisor) LLC-7 (Recall Contact) LLC-10 (Trading Name) LLC-1 (Previous Licensee) LLC-8 (Affected Person) LLC-11 (Previous Trading Name) LLC-30 (Refund Payee)
Property	LPAPROP LPATITLE CNAROLE LPACOMP	LPA-0 (Property Owner) LPA-1 (Occupier) LPA-2 (Owner Nominee) LPA-3 (Occupier Nominee) LPA-5 (Previous Owner) LPA-10 (Trading Name) LPA-90 (Voters Owner Group) LPA-91 (Voters Occupier Group) LPA-92 (Voters Mail Address Override)
Animals	LANANML	LAN-1 (Animal Owner)
Bookings	ABKRQHD	ABK-1 (Customer) ABK-2 (Contact) ABK-3 (Stakeholder) ABK-4 (Facility Owner) ABK-5 (Facility Manager) ABK-6 (Contractor) ABK-7 (Affected Party)
Rates	LPAASSM LRABENF	LRA-0 (Ratepayer) LRA-2 (Consumer) LRA-3 (Pensioner)
Customer Service	ACRREQU	ACR-1 (Customer Name)
Infringements	LIFINFR	LIF-0 (Offender)

VALID FIELD TYPES
The valid values for fieldtype within the roledetails are:

Type Code	Type Description
S	String (most common type and the default)
C	Currency
H#	Header Level, where # is a number representing the level E.g. H0 is top level, H1 is a child level, etc

VALID FIELD NAMES FOR EACH BUSINESS OBJECT

Animals

Field Label	Description	Type
Reference	Animal Number (ANMLREFER.LANANML)	String
Animal Name	Animal Name (ANMLNAME.LANANML)	String
Animal Id	Animal (TPKLANANML.LANANML)	String
Breed	Animal Breed (DESCR.LANBRED). If two breeds, they will be combined.	String
Colour	Animal Colour (DESCR.LANCOLR). If two colours, they will be combined.	String
Gender	Animal Gender (GENDER.LANGEND)	String
Class	Animal Class (DESCR.LANCLAS)	String
Registration Date	Date Range of Registration Period	String
Disc Number	Animal Disc Number	String
StatusCode	Animal Status Code (CDELANSTUS.LANSTUS)	String
Status	Animal Status Description (DESCR.LANSTUS)	String
LocationId	Location Key (TPKLPAPROP)	String
Location	Formatted Location Address	String

Applications

Field Label	Description	Type
Formatted Number	Formatted Application Number	String
Application Number	Application Number (APPNNUMB.LAPAPNO)	String
Application Year	Application Year (APPNYEAR.LAPAPNO)	String
Application Id	Application Id (TPKLAPAPPL.LAPAPPL)	String
Location	Location Description (Property Address, Parcel Location or Street)	String
Location Type	Location Type (Property, Parcel, Street or None)	String
Location Id	Key for Property (TPKLPAPROP), Parcel (TPKLPAPARC) or Street (TPKLPASTSB)	String

Field Label	Description	Type
Lodgement Date	Lodgement Date (LODGEDATE.LAPAPPL)	String
Application Type	Application Type Description (DESCR.LAPTYPE)	String
Description	Application Description (DESCR.LAPAPPL)	String
Status Code	Application Status Code (STATUS.LAPSTAT)	String
Status	Application Status (DESCR.LAPSTAT)	String

Licences

Field Label	Description	Type
Formatted Number	Formatted Application Number	String
Licence Number	Licence Number (APPNNUMB.LAPAPNO)	String
Licence Year	Licence Year (APPNYEAR.LAPAPNO)	String
Licence Id	Licence Id (TPKLAPAPPL.LAPAPPL)	String
Location	Location Description (Property Address, Parcel Location or Street)	String
Location Type	Location Type (Property, Parcel, Street or None)	String
Location Id	Key for Property (TPKLPAPROP), Parcel (TPKLPAPARC) or Street (TPKLPASTSB)	String
Lodgement Date	Lodgement Date (LODGEDATE.LAPAPPL)	String
Licence Type	Licence Type Description (DESCR.LAPTYPE)	String
Description	Licence Description (DESCR.LAPAPPL)	String
Status Code	Licence Status Code (STATUS.LAPSTAT)	String
Status	Licence Status (DESCR.LAPSTAT)	String
Date To Be Commenced By	Date To Be Commenced By (COMBYDATE.LAPAPPL)	String
Date To Be Completed By	Date To Be Completed By (CMPBYDATE.LAPAPPL)	String

Customer Requests

Field Label	Description	Type
Request Number	Request Number (REQUNUM.ACRREQU)	String
Status Code	Request Status Code (CDEACRSTAT.ACRSTAT)	String
Status	Request Status (DESCR.ACRSTAT)	String
Request Key	Request Key (TPKACRREQU.ACRREQU)	String
Request Type Code	Request Type Code (REQTCODE.ACRREQT)	String
Request Type	Request Type (DESCR.ACRREQT)	String
Request Date	Date Received (DATERECV.ACRREQU)	String

Field Label	Description	Type
Date Completed	Date Completed (DATECOMP.ACRREQU)	String
Property Id	Linked Property Id (TPKLPAPROP)	String
Property	Property Address	String
Street Suburb Id	Linked Street/Suburb Id (TPKLPASTSB)	String
Street Suburb	Street/Suburb Description	String

Bookings

Field Label	Description	Type
Booking Number	Booking Number (BOOKNUM.ABKRQHD)	String
Booking Class	Booking Class (DESCR.ABKCLAS)	String
Booking Status	Booking Status (DESCR.ABKSTAT)	String
Activity Type Id	Activity Type (DESCR.ABKACTP_2)	String
Activity Name	Activity Name (DESCR.ABKRQHD)	String
Attendees	Number of Attendees (ATTENDEES.ABKRQHD)	String
Activity Fee Discount	Activity Fee Discount	Currency
Activity Fee Discount Descr	Activity Fee Discount Description	String
Bond Amount	Activity Bond Amount	Currency
Bond Tax Amount	Activity Bond Tax Amount	Currency
Other Amount	Activity Other Amount	Currency
Other Tax Amount	Activity Other Tax Amount	Currency
Total	Activity Total	Currency
Total Tax	Activity Total Tax	Currency
Activity Fee	Activity Booking Fee	Currency
Booking Booked Dates	Facility Booked Dates	Heading Level 0 (H0)
Booking Facility	Facility Description (DESCR.ABKFACL)	Heading Level 1 (H1)
Facility Date	Facility Date and Time Range	String
Booking Fee Type	"Facility Fee" Header	String
Bond Amount	Facility Bond Amount	Currency
Bond Tax Amount	Facility Bond Tax Amount	Currency
Other Amount	Facility Other Amount	Currency
Other Tax Amount	Facility Other Tax Amount	Currency
Facility Fee Discount	Facility Fee Discount	Currency

Field Label	Description	Type
Facility Fee Discount Descr	Facility Fee Discount Descr	String
Total	Facility Total	Currency
Total Tax	Facility Total Tax	Currency
Booking Fee Type	"Resource Fee" Header	String
Other Amount	Resource Other Amount	Currency
Other Tax Amount	Resource Other Tax Amount	Currency
Resource Fee Discount	Resource Fee Discount	Currency
Resource Fee Discount Descr	Resource Fee Discount Descr	String
Total	Resource Total	Currency
Total Tax	Resource Total Tax	Currency
Booking Resources	Booking Resources	Heading Level 3 (H3)
Booking Resource	Booking Resource (DESCR.ABKRESC)	String

Property

Field Label	Description	Type
Property Id	Property Id (TPKLPAPROP)	String
Address	Formatted Property Address	String
Ward	Ward Code and Description (ABBREV.LPAWARD & DESCR.LPAWARD)	String
Description	Property Description (DESCR.LPAPROP)	String
Alternately known as	Alternate Address	String
Historically known as	Historically known as	String
Mailed to as	Mailed to as	String
Also known as	Also known as	String
Area	Property Area	String
Name Role Header	Name Role Description	Header Level 0 (H0)
[DESCR.CNAROLT]	Formatted Name Role Details for each name within Name Role Header	String
Occupier Nominee Header	Occupier Nominee Header	Header Level 0 (H0)
Occupier Nominee	Occupier Nominee	String
Zone Type Header	Zone Type Header	Header Level 0 (H0)

Field Label	Description	Type
Zone Type	Zone Type Code and Description	String
Land Use Type Header	Land Use Type Header	Header Level 0 (H0)
Land Use Type	Land Use Code and Description	String
Condition Header	Condition Header. Appears as multiple levels depending upon whether the conditions relate to Property (H0), Title (H1) or Parcels (H3)	Header Level 0/1/3 (H0/H1/H3)
Condition	Condition Code and Description	String
Title Header	Formatted Title (FMTTITLE.LPATITL)	Header Level 0 (H0)
Owners Header	Title Owners Header. Appears as level 0 for Internal Titles and level 1 if not.	Header Level 0/1 (H0/H1)
Owner	Title Owner	String
Owner Nominee Header	Owner Nominee Header.	Header Level 0 (H0)
Owner Nominee	Owner Nominee	String
Parcel Header	Parcel Header	Header Level 1 (H1)
Parcel	Parcel Detail Description	String
Sub-property of Header [TPKLPAPROP]	Formatted Address of Parent Property - Label also contains TPKLPAPROP	Header Level 0 (H0)
Sub-property Header	Sub-property Header	Header Level 0 (H0)
Sub-property [TPKLPAPROP]	Formatted Address of Sub Property - Label also contains TPKLPAPROP	String
Rating Treatment Type Header	Rating Treatment Type Header	Header Level 0 (H0)
Rating Treatment Type	Rating Treatment Type Details	String

Infringements

Field Label	Description	Type
Ticket Number	Ticket Number (FMTTICKNUM.LIFINFR)	String
Offence Date	Offence Date (OFNCDATE.LIFINFR	String
Description	Offence Description (DESCR.LIFOFTP)	String

Rates Assessments

Field Label	Description	Type
Assessment Number	Assessment Number & Check Digit (ASSMNUMBER.LRAASSM + ASSMCHECK.LRAASSM)	String

Field Label	Description	Type
Reference Number	Trade Waste Reference Number	String
Assessment Status	LRAC_ASSMSTATUS%%STATUS.LRAASSM%%%	String
Assessment Application	Assessment Application based upon APPLICATN.LRAASSM (B - Rates and Water Billing, D - Debtors, R - Rates, T - Trade Waste, W - Water Billing)	String
Ratepayer Names	Ratepayer Names for Rates and Trade Waste	String
Consumer Names	Consumer Names for Water Accounts	String
Mailing Address	Mailing Address of First Name	String
Primary Location	Primary Location (Property or Parcel address depending upon Location Type)	String
Location Type	Location Type (Property or Parcel)	String
Location Id	Location Id (TPKLPAPROP or TPKLPAPARC depending upon Location Type)	String
Property Description	Property Description (only present if Location Type is Property)	String
Property Owners	Property Owners (only present if Location Type is Property)	String

DTD REQUEST AND RESPONSE CHANGES

REQUEST DATA CHANGES

A new extradetails boolean has been added to allow request of the extra roledetails:

```
<!ELEMENT root (request)>
<!ELEMENT request
(identityid?,username?,checkdetails?,checkdebt?,checkoptions?,debtonly?,forcerefresh?,cache
days?,skipcache?,extradetails?,roletypeid?,roletypea?,roletypen?,roleid?,roleapplicationid?,role
mainid?,enquirylistid?,stakeholder?, maximumresults?, retrievecount?, responsecount?)>

Paperclip Attachments

| Incident: LATR CS0170911 | Work Item: 63766 | Fix: |
| UX Client | KB: | ERS: |

ATTACHMENT MAINTENANCE

A change has been made to the function of the View button on the data-grid for Paperclip Attachment files so that this action ensures the file is opened or downloaded via a new browser tab, ensuring the Pathway UX tab is not replaced by the opened file. The only exception to this is for Microsoft Word and Microsoft Excel files which are opened in the Microsoft application. URL attachments are still opened in a new tab and the Edit button continues to only be enabled for Microsoft Word and Microsoft Excel files as they always have.

Bookmarks

| Incident: MELV 15085118, MELV CS0053735 | Work Item: 54289 | Fix: |
| UX Client | KB: | ERS: |

Additional options can now be bookmarked: Application Class, Booking Class, Infringement Type, Licensing Class and Register Type, similar to how a default class was defined.

When more than one class is bookmarked they will appear like this.
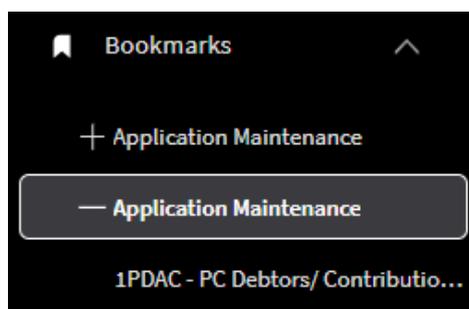

Bookmarks can be removed using the menu item; Application Maintenance in the example above.
If the Bookmark doesn't immediately appear refresh the browser page using F5.

Pathway Email Attachment Links

Incident: MELV CS0044906, TOOW CS0051181, LOGA CS0056751	Work Item: 59557	Fix:
UX Client	KB:	ERS:

PATHWAY EMAIL ATTACHMENT LINKS

A change has been made to the processing of Pathway Email Attachment Links (.pth files) to ensure the Pathway browser window remains visible after displaying the required details.

Fines Write-Off Generation

Incident: STHL CS0047280	Work Item: 62314	Fix:
UX Client	KB:	ERS:

Corrected an error that was displayed when adding a profile to Fines Write-Off Generation.

Unprocessed Requests Enquiry

Incident:	Work Item: 62484	Fix:
UX Client	KB:	ERS:

UNPROCESSED REQUESTS ENQUIRY

System Administration >> ePathway >> System Processing >> Unprocessed Requests Enquiry has been updated to use Pathway UX user interface standards.

Summary Form

Incident: LATR CS0035863	Work Item: 62736	Fix:
UX Client	KB:	ERS:

Summary parts will display the title and if it is too large for the width an ellipsis (...) is displayed.

Home Page

Incident:	Work Item: 63526	Fix:
UX Client	KB:	ERS:

MYREPORTS HOME PAGE PART

The performance of the My Reports part on the home page has been improved by limiting the number of reports displayed to a maximum of one hundred. Also any My Reports records older than one year will not be displayed.

In addition to these changes to the part logic, a new automatic background cleanup process has been added to delete records older than one year from the database to automatically manage the size of the database table on an ongoing basis.

Open Options in Search Results

Incident: KSTN CS0144915, TOOW CS0176316, SWAN CS0203455	Work Item: 63790	Fix:
UX Client	KB:	ERS:

The option menu will remain open when a summary form is loaded if the Open Options in Search Results user setting is enabled.

ePathway Message Audit Enquiry

Incident:	Work Item: 62924	Fix:
UX Client	KB:	ERS:

MESSAGE QUEUE AUDIT SEARCH PROFILE

System Administration >> ePathway >> System Processing >> Message Audit Enquiry has been updated to use Pathway UX user interface standards.

Animal Registration

Animal Maintenance

Incident: MACK CS0053109 UX Client	Work Item: 61270 KB:	Fix: ERS:

ANIMAL OWNER MAINTENANCE

The Replace data-grid button is now available in Animal Owner Maintenance. The button enables the Replacement of the current Owner with a new Owner. The Status of the Previous Owner is changed to Historic as part of the process.

Applications

Application Parameters

Incident: TOOW CS0043467	Work Item: 61137	Fix:
UX Client	KB:	ERS:

Applications >> Application Parameters >> Development Category forms have been updated to use Pathway UX user interface standards.

Application Maintenance

Incident: LOGA CS0054911, LOGA CS0057232	Work Item: 61231	Fix:
UX Client	KB:	ERS:

MAJOR DEVELOPMENT CATEGORIES MAINTENANCE
MINOR DEVELOPMENT CATEGORIES MAINTENANCE
MINOR DEVELOPMENT CATEGORIES DIMENSION MAINTENANCE

Major and Minor Development Categories and Dimension Maintenance have been updated to use Multi Select Mode and the data-grids on the forms have been changed to swap-lists.

NOTE: Single Development Category Preferred mode is no longer in use as all Category forms use swap-lists for entry. Single Development Category Preferred will be removed from UX Applications - Application Parameters - System Parameter in the near future.

History Take Up

Incident:	Work Item: 62237	Fix:
UX Client	KB:	ERS:

APPLICATION HISTORY TAKE-UP

When a History Take-Up record is saved, the form was incorrectly returning to the Home page. Now after saving, Pathway will remain on History Take-Up to enable the next record to be entered.

Application Maintenance

Incident: STHL CS0031848	Work Item: 63039	Fix:
UX Client	KB: 2327856	ERS:

RELATED APPLICATIONS MAINTENANCE

When searching for a new related application via Names:
- Application information, rather than an empty space, is now displayed on search completion for the first name in the resulting list.
- It is now possible to select an application for an external name without error.

Application Maintenance

Incident: STHL CS0045722	Work Item: 63093	Fix:
UX Client	KB:	ERS:

APPLICATIONS SEARCH PROFILE (APPLICATION SEARCH)

Filter values entered on this form are now recognized during subsequent searches, following an initial search.

Application Parameters

Incident:	Work Item: 63945	Fix:
UX Client	KB:	ERS:

USER ACTION FEE MAINTENANCE

Previously, an error may have been displayed when adding a fee code to a workflow user action when that fee code had already been assigned to another user action.

Application Maintenance

Incident: DUNE CS0213543	Work Item: 63980	Fix:
UX Client	KB: KB3520134	ERS:

APPLICATION FEES MAINTENANCE

Previously after removing one or more Fees, selecting the Debtors Transaction Generation option without pressing Save first would result in the removed Fees being transferred to Debtors.

Core Financials Interface

Exported Transaction Enquiry

Incident: DUNE CS0170948	Work Item: 63856	Fix:
UX Client	KB:	ERS:

CONTINUE TO END SEARCH NEVER STOPS

The search now correctly pages in subsequent records, stopping when all have been retrieved.

Customer Service

Request Entry

Incident:	Work Item: 59937	Fix:
UX Client	KB:	ERS: 93522

REQUEST ENTRY - AUTOMATIC SEARCH

The Address, Street Name, and Suburb are now displayed in the Customer Request Search Results when it is accessed via Automatic Search selection, Primary Request form, Secondary Request form, or the Applications and Licensing Customer Requests (ACR) workflow system action.

Request Entry

Incident: STHL CS0146935	Work Item: 60640	Fix:
UX Client	KB:	ERS:

WORKFLOW PROCESS

Changes have been made to the Customer Service Request Entry's Workflow process to ensure that auto start Tasks are automatically started without Task Summary form being displayed if user intervention is not required.

Request Type Maintenance

Incident: MACK CS0053207	Work Item: 60716	Fix:
UX Client	KB:	ERS:

REQUEST TYPE STATUS CODE MAINTENANCE

A correction has been made to Request Type Status Code Maintenance to filter out inactive statuses from the available Status Codes.

Request Entry

Incident: ADEL CS0056965	Work Item: 62511	Fix:
UX Client	KB:	ERS:

ALLOCATION EMAIL

A correction has been made to the Request Entry process to ensure the allocation email is sent to the Actioning Officer, as defined in the Request Type, after a confidential Request has been created and the User Account does not have maintenance access.

Request Entry

Incident: PLAY 1809308, LATR CS0035776	Work Item: 63335	Fix:
UX Client	KB:	ERS:

REQUEST TYPE SELECTION

A correction has been made to Request Entry to display the descendant Request Type in the Request Type tree when its Code is alphabetically ahead of its parent. Previously, these request types were not present in the tree.

Request Maintenance

Incident: SWAN CS0043173	Work Item: 63423	Fix:
UX Client	KB:	ERS:

CHANGE REQUEST TYPE

A correction has been made to Request Maintenance to ensure that a Request is saved without error when its Request Type has been changed and un-started Tasks removed.

Debtors

Debtor Maintenance

Incident: TOOW CS0043502, PERT CS0147194	Work Item: 63105	Fix:
UX Client	KB:	ERS:

CASHIER WARNING MAINTENANCE

Previously, the form title displayed F_LDRG1180 instead of Cashier Warning Maintenance.

Debtor Maintenance

Incident: HORN CS0053663	Work Item: 63658	Fix:
UX Client	KB:	ERS:

DOCUMENT SELECTION

A correction has been made to Document Selection which is accessed using the Debtor Summary Transactions option. Previously, when using the grid next page arrow it was possible for a Document to be missing on the next page. This only occurred where the first Document, that should have been displayed on the next page, had the same Document Date and Posting Date and Time as the last Document on the previous page. This problem also affected the Export to Excel grid function.

Document Management

Advanced Folder Update for GENCON EDMS

Incident:	Work Item: 62743	Fix:
UX Client	KB:	ERS: 74432

ADVANCED FOLDER UPDATE CONTROL

A new batch process has been added to complement the existing Bulk Folder Update process for Generic EDMS (GENCON) integration. There is now a new System Administration >> Integration >> Document Management Parameters >> Document Management System Housekeeping >> Generic EDMS >> Advanced Folder Update menu option available in Pathway UX, Image1.

The purpose of this new batch job is to be able to detect changes made to integrated business objects in near real time as recorded via Pathway Auditing. Dynamic Queries over the CAUAUDT audit table are used to determine the individual business objects that have changed on a given day to determine the Folder Updates that are published to the integrated EDMS software as they happen instead of all at once via the existing Bulk Folder Update job.

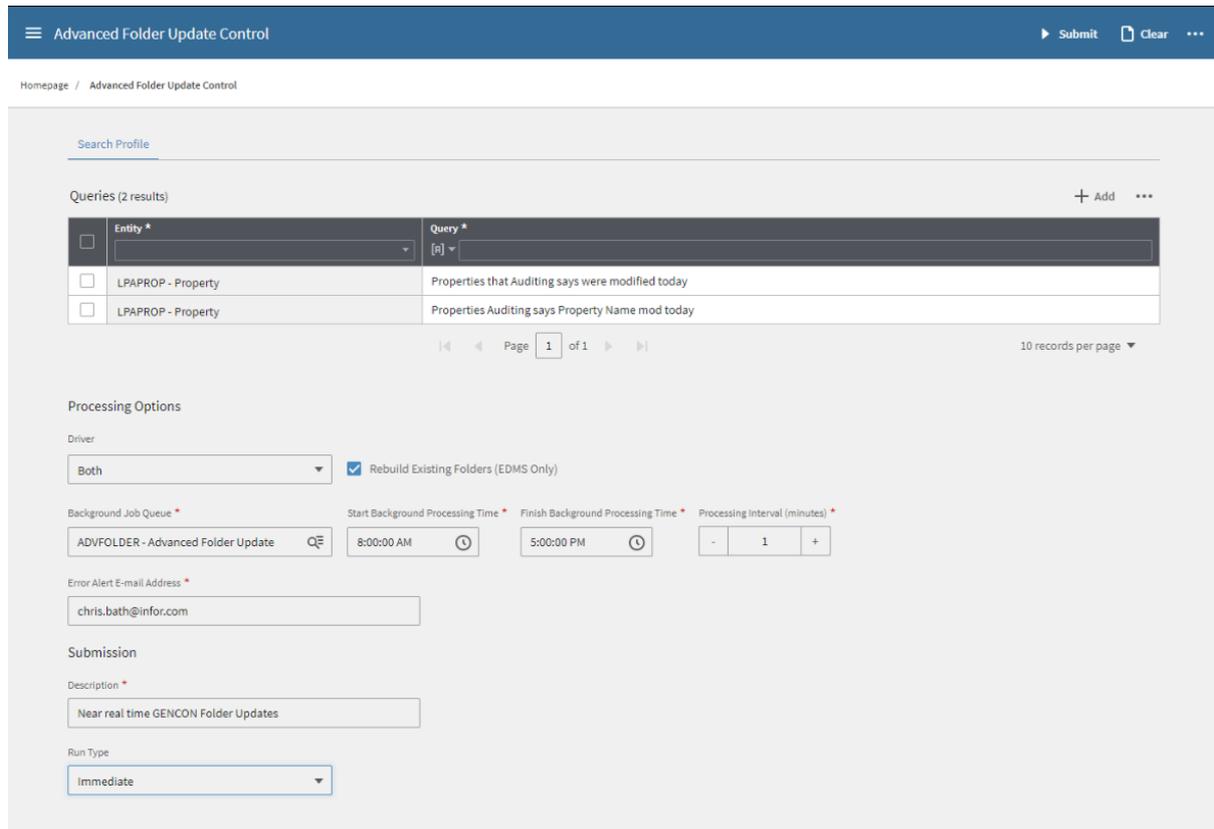

Image 1

This process can be used to publish to either GENCON generic EDMS drivers and/or the Core Data Publishing driver as required.

Only entities that have Folder Creation Required switched on via System Administration >> Integration >> Document Management Parameters >> Document Management Product Parameters are available for selection in this process to prevent attempts to publish folder updates that are not required.

It is necessary to define Pathway Queries to determine the business objects that have been modified today using Query >> Query Maintenance.

An example advanced query to detect changes made today to Property (LPAPROP) records as identified by Pathway Auditing is shown in Image 2.

Advanced Query Construction

Query Construction / Advanced Query Construction

Query Description *	Entity *	Model
Properties that Auditing says were modified today	LPAPROP - Property	LPA - Property Administration

Override SQL Statement

insert into cqyslct select distinct {{Query_Result_TPK}}, '', lpaprop.tpklpaprop from lpaprop, cauaudt, cqyenty
where cqyenty.entityname = 'LPAPROP' and cqyenty.tpkcqyenty = cauaudt.tfkcqyenty and lpaprop.tpklpaprop = cauaudt.prikeyval and cauaudt.cudaction = 'U' and cast(cauaudt.datetime as date) = '{{Current_Date}}'

Edit SQL

Image 2

The cast of the CAUAUDT.DATETIME is necessary to match all changes for today no matter what time they are made during the day.

Here is that example advanced query SQL statement as text that can be copied if required:

insert into cqyslct select distinct {{Query_Result_TPK}}, '', lpaprop.tpklpaprop from lpaprop, cauaudt, cqyenty
where cqyenty.entityname = 'LPAPROP' and cqyenty.tpkcqyenty = cauaudt.tfkcqyenty andlpaprop.tpklpaprop = cauaudt.prikeyval and cauaudt.cudaction = 'U' and cast(cauaudt.datetime as date) = '{{Current_Date}}'

Obviously Pathway Auditing must be switched on via Auditing >> Audit Model Maintenance for any tables for which these Queries need to be defined to be able to be used successfully by this process. Please also note that when defining this kind of query for LAPAPPL and LRAASSM there are additional requirements.

An LAPAPPL query must identify either Applications or Licences not a combination of both for this processing to be successful. So if publishing of folder updates for Applications and Licences requires two separate queries, one for Applications records and one for Licence records. Application records are identified by their related LAPCLAS.CLASSTYPE being set to 'A' and Licence records are identified by their related LAPCLAS.CLASSTYPE being set to 'L'.

An LRAASSM query must identify Trade Waste, Water Billing or Rates Assessment assessments not a combination of these for this processing to be successful. So up to three queries could be required for LRAASSM records. Trade Waste assessments are identified by the LRAASSM.APPLICATN being set to T and Water Billing assessments are identified by the LRAASSM.APPLICATN being set to W. Rates Assessments and Special Rates and Charges assessments can be combined and are identified by the LRAASSM.APPLICATN being set to R or S.

The Pathway Services Team can be engaged to assist with defining the required queries if required.

This batch job processing performs logging in the nominated batch queue log during normal operation without having to turn on tracing and sends email notifications to the nominated email address should any failures occur.

BATCH QUEUE MAINTENANCE

A new feature has been added to the Pathway UX Batch Processing >> Maintain Job Queues Administrator Level form to allow Batch Queue log files to be easily downloaded for troubleshooting in any deployment including a SAAS cloud deployment.

This is available for all Standard and Background Queues when the queue is started. When the queue is stopped it is not able to gather the log files for download.

To download log files for a Batch Queue click on the queue and then use the new Support >> Download Logs button on the queue data-grid shown in Image 3.
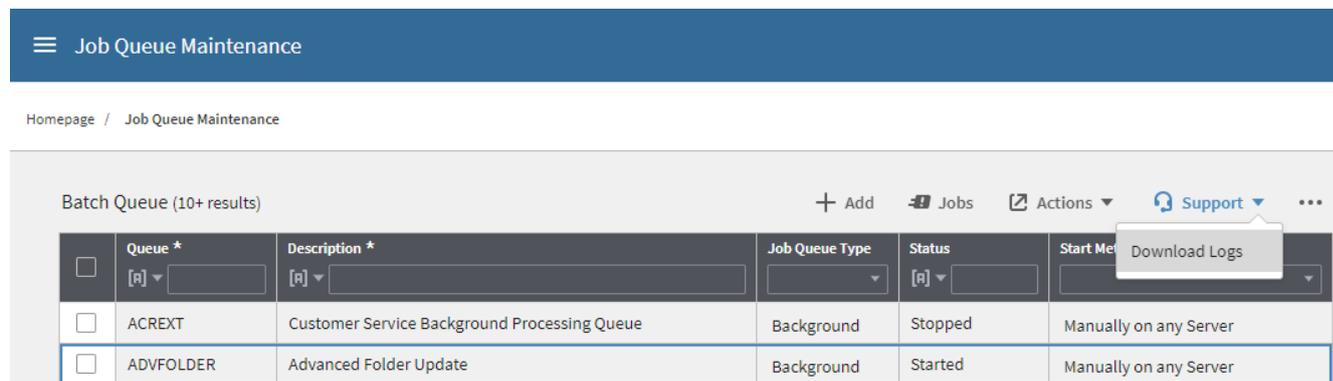

Image 3

Pathway will then provide a choice for the number of log files to download for the queue, Image 4.
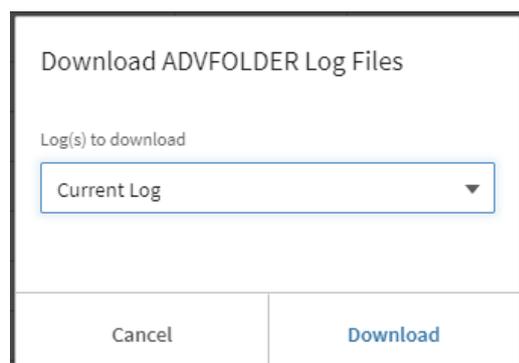

Image 4

The available choices are:
- Current Log
- Last Three Log
- Last Eight Log.

After choosing the required option and clicking Download a progress dialog is shown, Image 5. The download of the log files may have to wait for the queue to be idle before the download will commence. The download of log files cannot happen while the queue is processing a job.
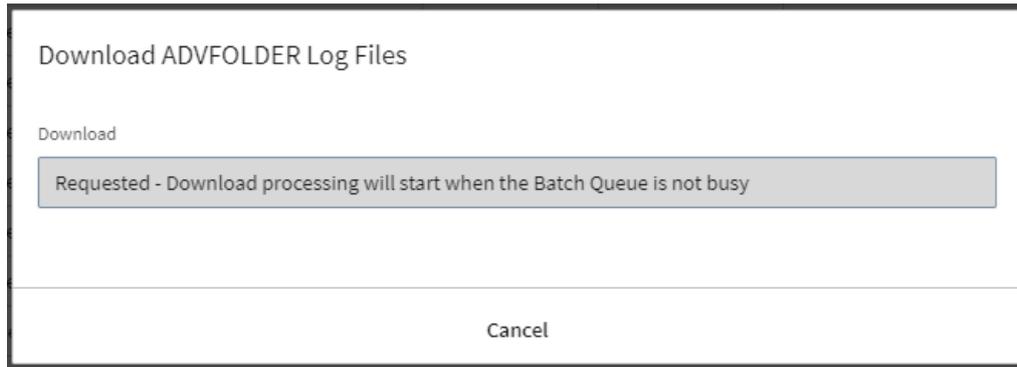

Image 5

Once the requested log file(s) have been prepared by the queue these will be downloaded in the normal way by the browser as a single .zip file.

EDMS/GENCON Driver files

Incident: ADEL 14967351, TOOW 17655790, WAIK CS0054847	Work Item: 61372	Fix:
UX Client	KB:	ERS:

Improved UX process to check and update the EDMS/GENCON driver files on the client machine, where necessary, when checking the Pathway Agent Connection.

ePathway System

ePathway System

Incident:	Work Item: 63676	Fix:
UX Client	KB:	ERS:

TYPE LISTED ON EACH PAGE IN ALL LODGEMENT PROCESSES

The Type selected at the start of a module's lodgement process is visible on each page of that process.

This applies to:
• Application Pre-Lodgement
• Animal
• Certificates
• Customer Service
• Licensing
• Bookings
• Payments

Sign In

Incident:	Work Item: 63738	Fix:
UX Client	KB:	ERS:

SHOW ICON BUTTON ADDED TO ALL PASSWORD INPUT TEXT BOXES

A button allowing the user to reveal the contents of a password field has been added to existing password entry text boxes for:
• Sign In
• Forgotten Password
• Register
• Change Password

The feature can be switched on via the System Setting *Password.EnableShowPassword*.

ePathway Core

Incident: LAKE CS0206310	Work Item: 64007	Fix:
UX Client	KB:	ERS:

REMOVAL OF OLD AND REDUNDANT SCRIPTS

We have removed some of the old/redundant script files in ePathway. Even though we have removed them from the Sprint 2024.06 ISO, we recommend that you perform a manual clean up and delete any of these files if they still exist:

- Web/Scripts/DateScripts/*
- Web/Scripts/jquery-1.8.1*.js
- Web/Scripts/jquery-2.1.1*.js
- Web/Mobility/Animals/jquery-1.*.js
- Web/Mobility/CityWatch/jquery-1.*.js
- Web/Mobility/CustomerService/jquery-1.*.js
- Web/Mobility/Inspections/jquery-1.*.js

IMPORTANT: Only delete the files explicitly mentioned above (e.g. Don't delete Web/Mobility/CityWatch/jquery-2.*.js - Only delete Web/Mobility/CityWatch/jquery-1.*.js)

ePathway General Enquiry

ePathway Applications General Enquiry

Incident: COGC CS0052869 UX Client	Work Item: 63223 KB:	Fix: ERS:

EPATHWAY APPLICATIONS GENERAL ENQUIRY NON-PROPERTY BASED LOCATION FIELDS

The Location Address field for ePathway Application and Licensing General Enquiry was not always displaying expected details for Parcel or Street based Applications/Licences.

The Location Address field in combination with Location Suburb appears twice as fields that can be included in the layout for Application General Enquiry. It appears at the top level providing the details for the overall Application, and it also appears within the Property Details column group, which means it is used to convey the details for each linked Location (be it Property, Parcel or Street).

The loading of these fields has been fixed for both Parcel and Street based applications:
- Location Address - Holds the Street address. IE. Everything up to but not including the suburb.
- Location Suburb.
- Ward (for Property Details column group only - this is now populated for Parcel and Street based locations).

ePathway Applications General Enquiry

Incident: UX Client	Work Item: 63477 KB:	Fix: ERS:

ADDITIONAL WORK FLOW FIELDS FOR EPATHWAY APPLICATION GENERAL ENQUIRY

The following additional fields are now available to be included within the Work Flow column groups for the ePathway Applications (and Licensing) General Enquiry:
- Task Type Code (which differs from the existing Application Task Type column as it contains the code instead of the description)
- Task Type (the Task Type Code plus the description)
- Actual Duration
- Statutory Duration
- Estimated Duration
- Estimated Start Date
- Estimated Completion Date (same as existing Due Date, but included for completeness)
- Original Estimated Duration
- Original Estimated Start Date
- Original Estimated Completion Date
- Duration Format (being one of: Average Day, Days, Hours, Months, Minutes, Weeks, Years).

ePathway Rates General Enquiry

Incident: WAIK CS0056626 UX Client	Work Item: 63918 KB:	Fix: ERS:

EPATHWAY RATES GENERAL ENQUIRY CHARGES WITH PREVIOUS PERIOD COMPARISON

A problem existed with the display of the Rates Charges if the Previous Rates Charges column group was present in the layout and then a prior period was chosen for display. This has been corrected.

ePathway Receipting

ePathway Payments

Incident:	Work Item: 63733	Fix:
UX Client	KB:	ERS: 108224

ANTIFRAUD FEATURE ON SECUREPAY PAYMENT GATEWAY

The Antifraud feature on the SecurePay payment gateway has been implemented for ePathway and CityWatch. This allows SecurePay's Risk Management features (e.g. blocking by IP Address) to be applied. You will need to contact SecurePay directly to have this feature switched on at their end.

Infringements

Infringement Maintenance

Incident: ATA CS0045465	Work Item: 57296	Fix:
UX Client	KB:	ERS:

INFRINGEMENT TYPE DESCRIPTION SEARCH PROFILE (ALL OUTSTANDING OFFENCES FOR REGISTRATION)

Previously, a New header button was available on the Search form when the form option All Outstanding Offences for Registration was clicked. The New button is now removed as it should not be available.

Infringement Maintenance

Incident: LATR CS0049562	Work Item: 62964	Fix:
UX Client	KB: 2327043	ERS:

ANIMAL INFRINGEMENTS TICKET MAINTENANCE

When linking an existing animal record to a new or existing infringement, if the animal record has a Physical Identification field value of more than 15 characters or a Particulars field value of more than 200 characters, a **Data is too long** error message is no longer displayed when saving the changes.

Infringement Maintenance

Incident: LATR CS0049568	Work Item: 63114	Fix:
UX Client	KB:	ERS:

INSTALMENT PAYMENT PLAN ENTRY

Instalment Payment Plan Entry has been updated to redirect to Instalment Payment Plan Maintenance after a save is performed or an option is selected.

Licensing

Licensing Maintenance

Incident: MACK CS0044410, MACK CS0044433	Work Item: 60012	Fix:
UX Client	KB:	ERS:

LICENCE SUMMARY

Previously, Trade Waste Assessment could not be accessed from a Licence record. The Trade Waste Option on the Licence Summary remains disabled when the Licence has been linked to a Trade Waste Assessment. If no link exists, the following message will now be displayed:
There is no Trade Waste Assessment linked to this Licence. If a link is required it will need to be established from Trade Waste.

Licensing Maintenance

Incident: MCKY CS0044434	Work Item: 61092	Fix:
UX Client	KB:	ERS:

TRANSFER MAINTENANCE

An **Object reference not set to an instance of an object** error is no longer displayed when a new transfer with fee linked to dimensions is saved

Licensing Parameters

Incident: TOOW CS0043467	Work Item: 61137	Fix:
UX Client	KB:	ERS:

Licensing >> Licensing Parameters >> Licence Category forms have been updated to use Pathway UX user interface standards

Licensing Maintenance

Incident: LOGA CS0054911, LOGA CS0057232	Work Item: 61231	Fix:
UX Client	KB:	ERS:

MAJOR LICENCE CATEGORIES MAINTENANCE
MINOR LICENCE CATEGORIES MAINTENANCE
MINOR LICENCE CATEGORIES DIMENSION MAINTENANCE

Major and Minor Licence Categories and Dimension Maintenance have been updated to use Multi Select Mode and the data-grids on the forms have been changed to swap-lists.

NOTE: Single Development Category Preferred mode is no longer in use as all Category forms use swap-lists for entry. Single Development Category Preferred will be removed from UX Licensing - Licencing Parameters - System Parameter in the near future.

History Take Up

Incident: UX Client	Work Item: 62237 KB:	Fix: ERS:

LICENSING HISTORY TAKE-UP

When a History Take-Up record is saved, the form was incorrectly returning to the Home page. Now after saving, Pathway will remain on History Take-Up to enable the next record to be entered.

Licensing Maintenance

Incident: STHL CS0045722 UX Client	Work Item: 63093 KB:	Fix: ERS:

LICENSING SEARCH PROFILE (LICENCE SEARCH)

Filter values entered on this form are now recognized during subsequent searches, following an initial search.

Licensing Maintenance

Incident: UX Client	Work Item: 63737 KB:	Fix: ERS:

TIME ADJUSTMENT MAINTENANCE

Previously when multiple timesheet fees were generated for a task, some of the fees may not have been able to be adjusted by the timesheet. The Time Adjustment Maintenance form would not have displayed the relevant timesheets for the user to adjust.

Licensing Parameters

Incident:	Work Item: 63964	Fix:
UX Client	KB:	ERS:

USER ACTION FEE MAINTENANCE

Previously, an error may have been displayed when adding a fee code to a workflow user action when that fee code had already been assigned to another user action.

Licensing Maintenance

Incident: DUNE CS0213543	Work Item: 63980	Fix:
UX Client	KB: KB3520134	ERS:

LICENCE FEES MAINTENANCE

Previously after removing one or more Fees, selecting the Debtors Transaction Generation option without pressing Save first would result in the removed Fees being transferred to Debtors.

Licensing Maintenance

Incident: STHL CS0031848	Work Item: 63039	Fix:
UX Client	KB: 2327856	ERS:

RELATED LICENCES MAINTENANCE

When searching for a new Related Licence via Names:
- Licence information, rather than an empty space, is now displayed on search completion for the first name in the resulting list.
- It is now possible to select a licence for an external name without error.

Licensing Maintenance

Incident:	Work Item: 63122	Fix:
UX Client	KB:	ERS:

MINOR LICENCE CATEGORIES MAINTENANCE

In Workflow, when the Minor Licence Categories Maintenance form is opened, an error is displayed in the browser console. This is now fixed and the form is displayed without the error.

Memos

Request Maintenance

Incident: ACC CS0055117	Work Item: 60427	Fix:
UX Client	KB:	ERS:

A Street's urgent memos are now displayed when linking a new street to a customer request.

Name and Address

Name and Address Maintenance/Name Enquiry

Incident: RAND CS0039137, LOGA CS0054945, PERT CS0106305	Work Item: 58797	Fix:
UX Client	KB:	ERS:

The navigation away from the Default Address option has been corrected when creating a new name and within Name Enquiry.

Name and Address Maintenance

Incident: MELV CS0044962	Work Item: 61599	Fix:
UX Client	KB:	ERS:

The performance of the Address Usage Enquiry has been improved.

Name Details Extract

Incident: SWAN CS0036987, BALK CS0057286	Work Item: 62688	Fix:
UX Client	KB:	ERS:

NAME DETAILS EXTRACT

This batch option has been improved to allow multi-threading. To ensure this can be activated, assign threading queues for control form CNAC7100 from the Threads button in Batch Processing >> Batch Form Maintenance.

Property Administration

Property Service Details

Incident:	Work Item: 58083	Fix:
UX Client	KB:	ERS:

The Sub-Properties button will now only display if a property has sub-properties.

Property Maintenance

Incident:	Work Item: 63645	Fix:
UX Client	KB:	ERS:

PROPERTY ADDRESS SEARCH PROFILE

The Options on this search form can be disabled due to Responsibility User Security and when certain Authorised Functions such as Search and Bulk Maintenance Enhancements are not authorised. When these are disabled in Pathway UX these do not function but were not shown as disabled so caused confusion when they did not function.
When these options are not available to the user they are now not listed.

Property Maintenance

Incident: ACC CS0136055	Work Item: 63646	Fix:
UX Client	KB:	ERS:

LAND USE SEARCH PROFILE (PROPERTY SEARCH)

When searching for properties via the Land Use option, the status criteria in the control details is now applied to the search correctly.

Transfer of Ownership Maintenance

Incident: BELM CS0044554, SWAN CS0135880	Work Item: 63656	Fix:
UX Client	KB:	ERS:

APPLICATION ROLE ENQUIRY (TRANSFER COMPONENT SEARCH)

When selecting the Role Details button on the Previous Owner Details grid, the Transfer of Ownership Maintenance is now displayed, rather than error **Object reference not set**.

TRANSFER OF OWNERSHIP MAINTENANCE

When the state of a property being transferred prevents the transfer from being completed, a useful message such as This property has Assessments attached which contain Rebates is now displayed, rather than error **Object reference not set**.

Property Service Details

Incident:	Work Item: 63708	Fix:
UX Client	KB:	ERS:

Property services can now be deleted in bulk from Property Service Details removing the need to detail into each record.

Property Maintenance

Incident:	Work Item: 63771	Fix:
UX Client	KB:	ERS:

ZONES SEARCH PROFILE (PROPERTY SEARCH)

When searching for properties via the Zones option the street and suburb criteria in the address details are now applied to the search correctly.

Query

Export/Import Format Maintenance

Incident:	Work Item: 55596	Fix:
UX Client	KB:	ERS:

The Fields data-grid will now add new rows to the bottom of the data-grid.

Rates Accounting

Activity Maintenance

| Incident: | Work Item: 56672 | Fix: |
| UX Client | KB: | ERS: |

ACTIVITY MAINTENANCE

A correction has been made so that Activities defined in the Trade Waste module are no longer shown.

Receipt Maintenance

| Incident: MELV CS0044931 | Work Item: 60391 | Fix: |
| UX Client | KB: | ERS: |

Receipt Maintenance performance has been improved by altering the way the receipt lines are read. This will help where a large number of receipt lines have accumulated over time.

Assessment Maintenance

| Incident: PARA CS0034350 | Work Item: 62110 | Fix: |
| UX Client | KB: | ERS: |

SUPPLEMENTARY RATE MAINTENANCE

A correction has been made so that the Transfer Groups and Reasons options now work correctly when Supplementary Rate Maintenance is accessed via the Assessment Maintenance menu option.

Assessment Maintenance

| Incident: STHL CS0031882 | Work Item: 62424 | Fix: |
| UX Client | KB: | ERS: |

ASSESSMENT SUMMARY

It is now possible to Add and Maintain a Profile when the following menus options are accessed from the Assessment Summary Form:
- Generate Rates Notice
- Generate Instalment Notice
- Generate Reminder Notice
- Generate Arrangement Notice
- Generate Debt Rec. Notice
- Generate Supp. Rates Notice
- Generate Rates Notice (NZ).

Payment Check Options

Incident: SWAN CS0050440, SWAN CS0050319	Work Item: 63154	Fix:
UX Client	KB:	ERS:

PAYMENT CHECK GENERATION CONTROL and DELETE FULLY PAID INSTALMENT PLANS CONTROL

A correction has been made so that the Query Result is no longer mandatory.

Assessment Maintenance

Incident:	Work Item: 63947	Fix:
UX Client	KB:	ERS:

ASSESSMENT SEARCH PROFILE

Previously, when searching by Meter the Application drop down was not visible and the search results would only show the first 14 characters of any Meter Numbers that were 15 characters in length (the maximum length).

Receipting

Supervisor Drawer Enquiry

Incident: MCKY 8634323	Work Item: 59873	Fix:
UX Client	KB:	ERS:

Supervisor Drawer Enquiry will validate that a Drawer does not have any suspended receipts when Sign Off is performed.

Bulk Receipt Reversal

Incident: TOOW CS0038029	Work Item: 60582	Fix:
UX Client	KB:	ERS:

BULK RECEIPT REVERSAL CONTROL

The correct text is now displayed in the column headings in the Receipt Reversal Drawer swap-list.

External Receipt Import

Incident: SWAN CS0036983	Work Item: 60796	Fix:
UX Client	KB:	ERS:

EXTERNAL RECEIPT IMPORT CONTROL

Previously, Merchant Service Fee and Merchant Service Fee Tax amounts were displaying as blank instead of zero.

Receipting Maintenance

Incident: LOGA CS0056706	Work Item: 61776	Fix:
UX Client	KB:	ERS:

ALLOCATION TRANSFER

When attempting the Transfer process on an Allocation Line that required responses, an error message was unexpectedly displayed.

Cashier Sign On

Incident: SWAN CS0080200	Work Item: 62061	Fix:
UX Client	KB:	ERS:

CASHIER SIGN ON

Selecting a Drawer was not updating the Printer to the default in Drawer Maintenance.

Receipt Entry

Incident: UX Client	Work Item: 63373 KB:	Fix: ERS:

RECEIPT ENTRY

New display fields for Merchant Service Fee (MSF), MSF Percentage and Amount Tendered + MSF added to indicate the corresponding values when preparing a Payment Line to add to a Receipt. The new fields will only be shown when the Payment Type selected has a Merchant Service Fee Percentage value set.

Receipt Entry

Incident: DUNE CS0150073 UX Client	Work Item: 63686 KB:	Fix: ERS:

The expiry time on the receipt entry form has been extended from its default to 12 hours, this is three (3) times the existing timeout. This has been done so that long-running processes, like adding many one view payments, can complete before the form expires.

One View payments will display a processing indicator while the payments are added to the receipt.

Registers

Register Entry

Incident: MCKY CS0053211	Work Item: 63155	Fix:
UX Client	KB:	ERS:

The creation of a Register record has been standardised so the Summary loads after saving. This corrects an issue in Register Image Selection where the Add button would not work directly after creating a new Register record.

Register Entry Maintenance

Incident:	Work Item: 63905	Fix:
UX Client	KB:	ERS:

Register Entry Maintenance loading time has been decreased by removing unneeded calls to the application server. This has significantly improved the loading of registers with over 10 fields.

Trade Waste

Assessment Maintenance

| Incident: MACK CS0044419 | Work Item: 57042 | Fix: |
| UX Client | KB: | ERS: |

TRADE WASTE-LICENCE LINK

It is now possible to link an existing License to a Trade Waste Assessment.

Transaction Listing Report

| Incident: MACK CS0044421 | Work Item: 61648 | Fix: |
| UX Client | KB: | ERS: |

TRANSACTION LISTING CONTROL

Transaction Listing Report is now available in the menu (Trade Waste >> Reports >> Transaction Listing Report).

Assessment Maintenance

| Incident: MCKY CS0044420 | Work Item: 63190 | Fix: |
| UX Client | KB: | ERS: |

ANALYSIS MAINTENANCE

Analysis Maintenance now saves correctly and it is also possible to maintain the new entry in Analysis Pollutants data-grid.

Assessment Maintenance

| Incident: | Work Item: 63947 | Fix: |
| UX Client | KB: | ERS: |

ASSESSMENT SEARCH PROFILE

Previously, when searching by Meter the search results would only show the first 14 characters of any Meter Numbers that were 15 characters in length (the maximum length).

Valuations

Averaged Values Generation Update

Incident:	Work Item: 55518	Fix:
UX Client	KB:	ERS:

Previously, the Averaged Values Generation Update batch would generate error **generationTpkcbtjob is mandatory** when a profile was used.

Valuation Maintenance

Incident:	Work Item: 63846	Fix:
UX Client	KB:	ERS:

VALUATION MAINTENANCE

Performance improvements have been made to reduce the time to initial display and to avoid unnecessarily reloading the Valuation Values when clicking on different cells within the same Valuation grid row.

Water Billing

Assessment Maintenance

Incident: STHL CS0031882 UX Client	Work Item: 62424 KB:	Fix: ERS:

GENERATE WATER USAGE NOTICE

Previously, User was unable to Add and Maintain a Profile on the form. The Profiles Option is now available.

Assessment Maintenance

Incident: MCKY CS0044425 UX Client	Work Item: 63291 KB:	Fix: ERS:

METER READING ENTRY

It is now possible to update the Reading Entry for an existing Reading with a Special or Tenant Read Type when the Read Request checkbox is unchecked in Assessment Meter Maintenance.

Assessment Maintenance

Incident: UX Client	Work Item: 63947 KB:	Fix: ERS:

ASSESSMENT SEARCH PROFILE

Previously, when searching by Meter the Application drop down was not visible and the search results would only show the first 14 characters of any Meter Numbers that were 15 characters in length (the maximum length).

Workflow

Workflow

| Incident: SWAN CS0050388 | Work Item: 62311 | Fix: |
| UX Client | KB: | ERS: |

The Start, Continue and Complete buttons are now either disabled or hidden depending on whether a task has been started, partially run, or completed.

Request Maintenance

| Incident: MELV CS0053745 | Work Item: 62624 | Fix: |
| UX Client | KB: | ERS: |

INSPECTION MAINTENANCE

Previously when accessing applications via a Customer Request, the Inspection workflow action may have returned an Access Denied message when adding a new inspection or maintaining some of the inspection options from the Inspection Summary form.
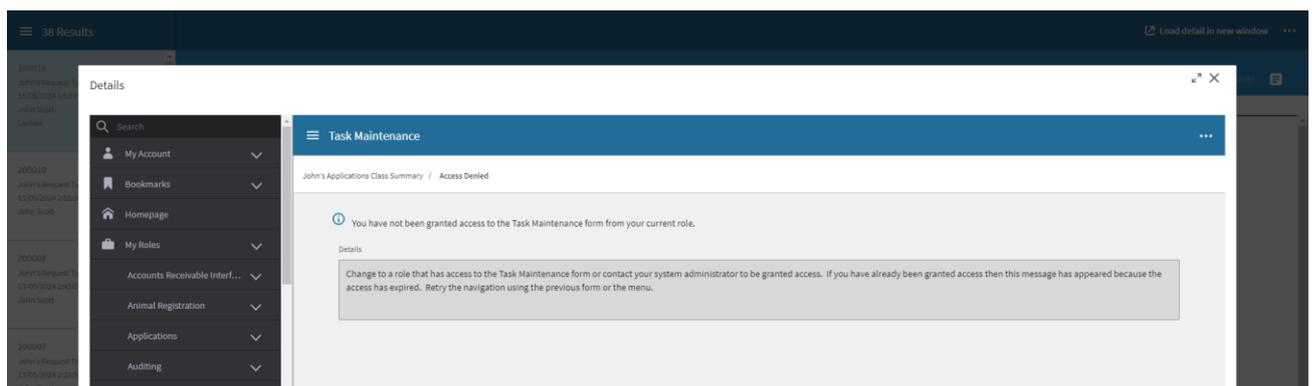

Application Maintenance

| Incident: | Work Item: 63737 | Fix: |
| UX Client | KB: | ERS: |

TIME ADJUSTMENT MAINTENANCE

Previously when multiple timesheet fees were generated for a task, some of the fees may not have been able to be adjusted by the timesheet. Time Adjustment Maintenance would not have displayed the relevant timesheets to enable adjustment.

Timesheet Fee Adjustment

Time Adjustment Maintenance   Save   Undo   ...
