## About this document

This document describes the updates made to Infor Shop Floor.

## Intended audience

This document is intended for any VISUAL Shop Floor user.

## Related document

You can find the documents in the product documentation section of the Infor Support portal.

*Infor VISUAL Shop Floor Installation and Configuration Guide*

## Contacting Infor

If you have questions about Infor products, go to Infor Concierge at <https://conciierge.infor.com/> and create a support incident.

If we update this document after the product release, we will post the new version on the Infor Support Portal. To access documentation, select **Search > Browse Documentation**. We recommend that you check this portal periodically for updated documentation.

If you have comments about Infor documentation, contact [documentation@infor.com](mailto:documentation@infor.com).

## Prerequisites

To use VISUAL Shop Floor, you must meet these prerequisites:

- Infor VISUAL 10.0.0 Service Pack 5 or higher must be installed.
- Internet Information Services 7.x or higher must be installed.
- ASP .NET 4.6 or higher must be installed.
- Microsoft .NET Framework 4.6.1 or higher must be installed
- The URL Rewrite extension for IIS must be installed.
- A signed certificate that can be used for SSL or TLS.

The Shop Floor apps are compatible with the latest versions of these browsers:

- Firefox
- Google Chrome
- Microsoft Edge
- Safari

## Licensing

You must apply a Shop Floor license to access Shop Floor apps. You can no longer license the app through VISUAL Time & Attendance or VISUAL BTS/Wedge Barcode.

If you previously licensed Shop Floor through VISUAL Time & Attendance or VISUAL BTS/Wedge Barcode, contact Infor to acquire your license key.

## Enhancements

Major enhancements have been made to Infor VISUAL Shop Floor.

For more information about how to set up the new enhancements, see the *Infor VISUAL Shop Floor Installation and Configuration Guide*.

For more information about how to use the new enhancements, see the Infor VISUAL Shop Floor online help.

### Ability to sort Material views

New **Default Picking Sequence** drop-down is added to the **Material** tab on the **Preferences** form. This drop-down list allows you to select a default sort order sequence. Users can sort the materials list by warehouse and location to select the materials for work orders. This functionality is available on these forms:

- Issue by Work Order
- Operation Materials
- Work Order Materials

### New check boxes added

The **Show unissued only** and **Show auto issue parts** check boxes are added, allowing users to include auto issue and issued materials in the results.

The check boxes are added to these forms:

- Preferences (Material tab)
- Issue by Work Order
- Operation Materials
- Work Order Materials

## Whs/Loc drop-down added

New **Whs/Loc** drop-down is added to select a warehouse ID and location ID for inventory transactions in the **Trace** entry form.

## Activities

You can now use the **Activities** form to add, modify, and view activities for selected operations. Activities can be accessed using these forms:

- Resource Schedule
- Operations (work order)
- Labor By Work Order

## Adjust Percent Complete form added

The new **Adjust Percent Complete** form allows the user to adjust the percent or quantity complete on the selected operation when labor for the operation is created using the percent complete or amount complete by hours feature. The **Adjust Percent Complete** form can be accessed from these forms:

- Resource Schedule
- Operations (work order)
- Labor By Work Order

## Set as primary check box added

A new **Set as primary** check box is added to the **Adjust In** and the **Transfer** forms. You can now specify the primary warehouse location for the part when performing adjust in and transfer operations.

## Installing Shop Floor 10.0.0 Service Pack 5

If you are installing Shop Floor for the first time, see “Installing Shop Floor” in the *Infor VISUAL Shop Floor Installation and Configuration Guide*.

If you are updating an installation of Infor VISUAL Shop Floor 9.0.5 or later, see “Applying a Shop Floor update” in the *Infor VISUAL Shop Floor Installation and Configuration Guide*.

If you are updating an installation of Infor VISUAL Shop Floor that is earlier than version 9.0.5, see “Uninstalling the TD Mobile Shop Floor app” and “Installing Shop Floor” chapters in the *Infor VISUAL Shop Floor Installation and Configuration Guide*.

## Resolved issues

This table shows the defects that were resolved in this release:

Defect #	Description
788047	Fixed an issue with being unable to rearrange the columns in the Issue by WO form.
791433	Fixed an issue with incorrect cost on auto issued material in the standard cost database.
792424	Fixed issue related to the "Part location INSPECTION for warehouse is not active" message in the Purchase Order Entry.
794126	Fixed issue related to the Resource Schedule not responding in Shop Floor Mobile.
794204	Fixed issue related to the "Quantity completed exceeds threshold. You have exceeded threshold by...." error message when specifying a quantity more than the Workorder quantity in the Quantity Complete field.
794421	Fixed an issue with the application not responding when specifying counts for a part in an unassigned location.
794879	Fixed an issue where the labels in the Inventory Transactions are missing when the scan mode is disabled.
796998	Fixed issue related to the "Attempted to divide by zero" error message when stopping a job using Shop Floor Mobile.
