## About this document

This document describes the updates made to Infor Shop Floor.

## Intended audience

This document is intended for any VISUAL Shop Floor user.

## Related document

You can find the documents in the product documentation section of the Infor Support portal.

*Infor VISUAL Shop Floor Installation and Configuration Guide*

## Contacting Infor

If you have questions about Infor products, go to Infor Concierge at <https://conciierge.infor.com/> and create a support incident.

If we update this document after the product release, we will post the new version on the Infor Support Portal. To access documentation, select **Search > Browse Documentation**. We recommend that you check this portal periodically for updated documentation.

If you have comments about Infor documentation, contact [documentation@infor.com](mailto:documentation@infor.com).

## Prerequisites

To use VISUAL Shop Floor, you must meet these prerequisites:

- Infor VISUAL 10.0.0 Service Pack 6 or higher must be installed.
- Internet Information Services 7.x or higher must be installed.
- ASP .NET 4.6 or higher must be installed.
- Microsoft .NET Framework 4.6.1 or higher must be installed
- The URL Rewrite extension for IIS must be installed.
- A signed certificate that can be used for SSL or TLS.

The Shop Floor apps are compatible with the latest versions of these browsers:

- Firefox
- Google Chrome
- Microsoft Edge
- Safari

## Licensing

You must apply a Shop Floor license to access Shop Floor apps. You can no longer license the app through VISUAL Time & Attendance or VISUAL BTS/Wedge Barcode.

If you previously licensed Shop Floor through VISUAL Time & Attendance or VISUAL BTS/Wedge Barcode, contact Infor to acquire your license key.

## Enhancements

Major enhancements have been made to Infor VISUAL Shop Floor.

For more information about how to set up the new enhancements, see the *Infor VISUAL Shop Floor Installation and Configuration Guide*.

For more information about how to use the new enhancements, see the Infor VISUAL Shop Floor online help.

### Activity status

The new **Status** option in **Activities** form allows you to set the status of the activity when the activities are added or modified for the selected operations.

### Ability to filter Trace location

A new **Show on hand only** check box is added to the **Trace** entry form. This check box allows you to filter the **Whs/Loc** drop-down to include only locations with an on-hand balance.

### Set as primary check box added

A new **Set as primary** check box is added to the **Work Order Receipt** form. You can now specify the primary warehouse location for the part when performing a work order receipt transaction.

## Ability to sort Resources

A new **Sort by resource sequence** check box is added to the **Resource Schedule** and the **Resources** forms. This check box allows you to sort the items based on the shop view resource sequence number. Note that the **Sort by resource sequence** check box is only available if the **Schedule View by** drop-down list is set to **Shop View** and the **Combine resources on schedule** check box is selected in the **Schedule** tab of the **Preferences** form.

## PO Receipt Specifications and Notes

The **Receipt Return Entry** and **Receiving Entry** forms are enhanced. You can now view and modify specifications and notations when performing a purchase order receipt or return.

## Installing Shop Floor 10.0.0 Service Pack 6

If you are installing Shop Floor for the first time, see “Installing Shop Floor” in the *Infor VISUAL Shop Floor Installation and Configuration Guide*.
