About this document

This document describes the features introduced in Infor VISUAL Payroll and HR 9.0.0.

Contacting Infor

If you have questions about Infor products, go to the Infor Xtreme Support portal at www.infor.com/infortreme.

If we update this document after the product release, we will post the new version on this website. We recommend that you check this website periodically for updated documentation.

If you have comments about Infor documentation, contact documentation@infor.com.

Additional Local Tax Authorities

This release adds two additional local tax agencies. You can use these tax authorities for any purpose, and you can customize the exemption rules. You can now define up to four local taxes using any suffix in the ID.

When you specify a local agency tax in the Employee Pay and Tax Data window, the description of the local tax is displayed to make it easier to identify.

If you create new local tax agencies, remember to add the new agencies to the tax matrix groups. To access the Tax Matrix Groups dialog, select **Maintenance > Company Data > Earning and Deduction Codes**. Then, select **Edit > Tax Matrix Groups**.

Enhanced Report E-mailing

When you elect to send a report via e-mail, VISUAL uses your system's default e-mail client. If you have no e-mail client, you can now configure VISUAL to use SMTP (Simple Mail Transfer Protocol) for e-mailing your reports. A basic e-mail window is provided to which you can add e-mail recipients, attachments and an appropriate subject and message.

Upgrade notes

If you are upgrading from VISUAL Payroll 7.1.2 or earlier, pay special attention to the upgrade procedures described in the VISUAL database installation guide for your database platform. Significant changes were made to the database at the 8.0.0 level.
