

Infor XA – Product Data Management User’s Guide Summary of Changes

Important Notices

The material contained in this publication (including any supplementary information) constitutes and contains confidential and proprietary information of Infor.

By gaining access to the attached, you acknowledge and agree that the material (including any modification, translation or adaptation of the material) and all copyright, trade secrets and all other right, title and interest therein, are the sole property of Infor and that you shall not gain right, title or interest in the material (including any modification, translation or adaptation of the material) by virtue of your review thereof other than the non-exclusive right to use the material solely in connection with and the furtherance of your license and use of software made available to your company from Infor pursuant to a separate agreement, the terms of which separate agreement shall govern your use of this material and all supplemental related materials ("Purpose").

In addition, by accessing the enclosed material, you acknowledge and agree that you are required to maintain such material in strict confidence and that your use of such material is limited to the Purpose described above. Although Infor has taken due care to ensure that the material included in this publication is accurate and complete, Infor cannot warrant that the information contained in this publication is complete, does not contain typographical or other errors, or will meet your specific requirements. As such, Infor does not assume and hereby disclaims all liability, consequential or otherwise, for any loss or damage to any person or entity which is caused by or relates to errors or omissions in this publication (including any supplementary information), whether such errors or omissions result from negligence, accident or any other cause.

Without limitation, U.S. export control laws and other applicable export and import laws govern your use of this material and you will neither export or re-export, directly or indirectly, this material nor any related materials or supplemental information in violation of such laws, or use such materials for any purpose prohibited by such laws.

Trademark Acknowledgements

The word and design marks set forth herein are trademarks and/or registered trademarks of Infor and/or related affiliates and subsidiaries. All rights reserved. All other company, product, trade or service names referenced may be registered trademarks or trademarks of their respective owners.

Product Data Management

Supplemental Changes

The following is an explanation of the enhancements made to Product Data Management.

Please see the *Product Data Management User's Guide* for more details about using the application.

Cost roll up graphic change

The graphic showing cost roll up for bill of material has been changed, see attached.

Function key description changes for Control File Maintenance displays

Revised description of the function keys 10 and 24 used on Control File Maintenance displays now read:

F10=Reset defaults causes the fields to be reset with the text from NLSTXT.

F24=End causes the File Maintenance menu to appear and updates any changes you made.

F8 has been removed from Control File Maintenance display (AMDPDM3).

Run option selection for Quantity updated for AMEF43 display

The field description for Quantity has been updated to match the new run option selection of 7 or 8 on the Retrieval Selections-Costed-Single List (Select) display. The earlier run option selection was 5 or 6.

Time Basis Code clarification for code M

When M is used, it not only applies to minutes per piece, but it also applies to all time fields entered; all other time basis codes apply only to run machine and run labor.
